Temperature Hit 101.6; Receding

President Has Mild Virus Infection; Remains In Bed

WASHINGTON (AP) — President Kennedy came down with a "mild virus infection" today. His temperature hit 101.6 degrees.

But the President's temperature had been receding for a couple of hours, press secretary Pierre Salinger said when reporting the illness to newsmen at 9:35 A.M.

Kennedy canceled all of his appointments for the day but Salinger said his doctors believed he can resume his regular schedule Friday.

As a precaution, Dr. Preston Wade, New York orthopedic specialist, was called down to examine the President to see if the virus infection has had any effect on his back ailment.

Wade was to see Kennedy in midmorning.

Salinger said Kennedy's temperature reached 101.6 at 7 a.m. He added it had dropped to 100.2 at 8:30 a.m. and was down to 99.2 at 9:25 a.m.

Salinger called newsmen together for a special conference to report Kennedy's illness. He said Kennedy summoned Dr. Janet Travell, the White House physician, from her Georgetown home to the White House after awaking at about 1:30 a.m.

The President's throat hurt and he felt feverish, Salinger said.

Dr. Travell called Dr. George Burkley, assistant White House physician.

Kennedy was given antibiotics, Salinger said. He said penicillin was among them but was unable to identify any other medication.

Kennedy gargled to relieve the sore throat, Salinger added, and throat cultures were taken.

Kennedy remained in bed this morning.

Salinger read a statement in which the illness was described as "a mild virus infection."

There was no immediate indication as to what caused the infection. Kennedy spent almost two hours Wednesday afternoon aboard the presidential yacht Honey Fitz, cruising on the Potomac River.

A heavy rain fell part of the time Kennedy was on the vessel, entertaining Japanese Prime Minister Hayato Ikeda, but he remained inside until the end of the cruise when the rain had stopped.

The President began walking without crutches Wednesday for the first time since June 9. He did not abandon them altogether but at intervals tried walking without support.

Salinger said he had talked with Kennedy by telephone at 11 p.m. Wednesday night and the President at the time said he felt very well.

"He told me it was the best day he had had as far as his back was concerned," Salinger said.

Kennedy injured his back while spading dirt in a tree-planting ceremony at Ottawa during his state visit to Canada on May 16.

An announcement of the strain was first made on June 8. Late that day Kennedy flew to Palm Beach, Fla. for a long weekend of rest.

Dr. Travell diagnosed the ailment as a lumbosacral strain. It affected his lower back. The White House has declared the condition was unrelated to Kennedy's previous back ailments, which led to surgery in 1954 while he was a Senator from Massachusetts.

Authorities Seek Cause Of Crash Fatal To Three

Train Hits Wreck Of Car, Trucks

Eastern Ohio Trio Dies In Mishap On Steubenville Rt. 7

Authorities searched for clues today to the cause of a spectacular accident Wednesday on Ohio Route 7 north of Steubenville that killed three persons and injured two.

Two trucks, a car and a Pennsylvania Railroad freight train were involved in the grinding crash described by police as the worst and most spectacular accident in traffic history in Jefferson County.

It occurred at 1 p. m. on a two-lane stretch of highway between Alikanna and the Pottery Addition, in the vicinity of the Kitty Kat night club. The twisted wreckage delayed traffic and the freight train was held up for three hours.

The Ohio Highway Patrol barracks at Wintersville said the manner in which the accident occurred is undetermined but a probe is underway.

The victims were identified as Mrs. Mary Mull, 50, of Steubenville R. D. 1; driver of the automobile; Clarence Alban, 76, of Pekin, a passenger in the car, and Kenneth E. Leone, 20, of Flushing, driver of a produce truck.

Donald R. Gump, 29, of Mingo Junction, driver of a tractor-trailer rig, suffered only minor injuries in the collision and was treated for shock at the Ohio Valley Hospital.

The highway patrol theorized two vehicles collided while one was attempting to pass a third. Investigators said the trucks then rolled into a ditch, dragging the car to the edge of the road.

A south-bound, 100-car freight train collided with the wreckage as it lay alongside the tracks.

E. D. Fuller of Columbus, engineer, told officers an emergency flare placed beside the tracks was not far enough away from the wreckage to give him sufficient warning.

The engineer said he spotted the wreckage before he saw the flare and could not stop in time. Police said the flare was about four car lengths up the track from the debris.

Accused Spy Set To Leave For Home

Czech U.N. Figure Seeking To Escape U.S. Deportation

UNITED NATIONS, N.Y. (AP) —Czechoslovak U.N. Delegate Miroslav Nacvalac planned to leave for home today to escape deportation as a spy.

The 39-year-old diplomat, No. 3 man in his country's U.N. delegation, had reservations on a French airliner for himself, his wife and two small sons.

Nacvalac, accused by the U.S. government of being Czechoslovakia's top spy in the country, had rejected an earlier U.S. demand that he leave the country.

He changed his plans after Washington announced it had revoked his status as a member of Czechoslovakia's U.N. mission, making him an alien in the country illegally. The United States said he could either leave voluntarily or be deported.

Czechoslovakia — and Nacvalac —denied the U.S. charges and accused the United States of violating the "headquarters" agreement between the United States and the U.N., which establishes the special rights and diplomatic immunity of foreign diplomats accredited to the U.N.

A spokesman for the Czechoslovak delegation said his government would continue to press in the U.N. to prove that the United States had no right to oust Nacvalac. The Communist bloc was expected to make extensive use of the incident in its campaign to move U.N. headquarters from New York to Vienna or some other "neutral" European city.

Partner Held For Murder

Pennsylvania Man Awaits Grand Jury

A Washington County (Pa.) coroner's jury Wednesday at Washington recommended Chester Hoffman of McDonald be held for Grand Jury action for the slaying of Leonard O. Bywaters of near Newell. The Grand Jury meets in August.

Coroner Farrall Jackson conducted the inquest at the County Courthouse and presented the testimony of Dr. Ernest O. Abernathy, hospital pathologist, who said the victim suffered five bullet wounds of the face and neck and that one penetrated the brain, killing instantly.

Hoffman, who shot the Arroyo sand and gravel firm operator Friday, declined to testify on advice of counsel.

A hearing will be held later when Hoffman may seek release on bond unless a first degree murder charge is sustained by the court.

Hoffman shot Mr. Bywaters after an argument in the McDonald home over the defendant's intentions to withdraw as a partner in the sand firm. He claims the victim had threatened him.

New Sulphur Unit Ready At Wellsville

The new $1,200,000 liquid sulphur terminal at Wellsville will be officially opened for operations Friday with the arrival of 10,000 tons of hot sulphur, barged in from Louisiana.

The terminal is situated below 25th St. on the Ohio River on land purchased from Wellsville and the Pennsylvania Railroad Co.

The terminal is being operated for the Freeport Sulphur Co. of New Orleans, La., and New York City by Sulphur Terminals, Inc.

Several officials of both firms were present to greet the first barges due in tomorrow from Freeport, La. The hot liquid sulphur will be pumped from the barges into large storage tanks, which also are kept hot to keep the sulphur in a molten stage.

The facilities include two 10,000-ton capacity steam heated tanks, which keep the yellow mineral at a constant temperature of 270 degrees.

The sulphur will then be pumped into railroad cars and tank trucks for transshipment to customers in Ohio, Pennsylvania, Western New York and Eastern Canada.

Present to greet the first tow coming up river from Freeport were D. L. Campbell Kerr, traffic manager for Freeport Sulphur, and Walter Hagestad, vice president of Sulphur Terminals and vice president of Canal Barge Co. of New Orleans, operators of the towboat lines carrying the sulphur.

John C. Carrington, vice president of sales for Freeport, also was to inspect the operations today.

The sulphur is delivered by high-speed, single-purpose river tows, each propelled by 4,300 - horsepower towboats.

Each tow has a capacity of 10,000 tons and an overall length of 1,179 feet, or greater than that of the Queen Elizabeth.

The barges contain two tanks, each heavily insulated with fiber-

U.S. To Give Views On K's Declaration

Soviet Chief Says Separate Treaty Is Due With Germany

WASHINGTON (AP) — U.S. officials today viewed Soviet Premier Khrushchev's latest declaration on East-West issues as a stepup in his post-Vienna cold war campaign.

Secretary of State Dean Rusk was slated to voice the U.S. government's views at an afternoon news conference.

At a Moscow rally Wednesday, Khrushchev said a peace treaty with Germany will be signed "at the end of this year." And he declared that if the United States resumes atomic testing, the Soviets immediately will do so too.

He set forth his Berlin timetable more precisely than he did during or since his talks at Vienna June 3-4 with President Kennedy.

Under Khrushchev's plan for a treaty with East Germany, the Soviets would give the Communist East German regime control over access to Berlin. The Western powers, which do not recognize East Germany, regard this as a move to push them out of the Red-encircled city.

U.S. experts, still studying the text of Khrushchev's remarks, were of differing opinions as to whether the Soviet chief had served an "ultimatum" on the German question.

It was recalled that Khrushchev once before set a six-month deadline on a German peace treaty without going through with a separate pact with East Germany. Also, it remained to be seen how far the Kremlin actually would move to push the Western allies out of West Berlin if it did conclude an East German treaty.

Nevertheless, U.S. authorities took Khrushchev's warning on Germany with great seriousness.

Lived On Beans Since Sunday

3 Taken Off Lighthouse After Blast Relate Story

CLEVELAND, Ohio (AP)— Three men, rescued Wednesday from the "loneliest lighthouse in the world," said they lived on a couple of cans of beans since an explosion rocked the Stannard Rock lighthouse in Lake Superior Sunday.

Chances that a fourth man still was alive were remote, the Coast Guard reported.

Missing was William A. Maxwell, 34, Houghton, Mich., father of five. Maxwell, an engineman first class, reportedly was still inside the tower. A search for him was impossible because of fumes from a raging fire in the lighthouse's coal storage bin.

Injured seriously was Oscar R. Daniels, 23, an electrician's mate from the Sault Ste. Marie Coast Guard base who was at the lighthouse on temporary duty to repair a generator.

Seaman Walter E. Scobie, 22, Troy, Mich., and Richard A. Horne, 18, New York, a seamen's apprentice, were not injured.

The blast was set off, the Coast Guard said, by gasoline and propane gas.

A Coast Guard unit near Hancock, Mich., talked to Scobie and Horne, who said they had made a tent of tarpaulin on the apron outside the tower.

Rev. D. Finley Wood Will Go To Bedford

Dr. D. Finley Wood, pastor of the First Methodist Church, is going to Bedford in assignments to be announced Saturday at the Lakeside sessions of the Northeast Ohio Conference.

He will succeed the Rev. Paul R. Balliott, who is being transferred to the First church of Lorain.

Rev. Wood's new charge is a 130 - year old First Methodist Church in the Cleveland suburb.

Gas Concern To Ask Raise

Council Conference Will Be Requested

The Ohio Valley Gas Co. will open negotiations with East Liverpool Council and in 10 other Ohio Valley communities for new natural gas rates and franchises, E. K. Harsh, Steubenville District manager, announced.

Harold Sneddon, local manager, was to convey the utility's request to Mayor Bert Goodballet today for the city Council session. Negotiations for the previous franchise were started in January 1960.

Other towns involved are Steubenville, Yorkville, Tiltonsville, Shadyside, Wellsville, Bridgeport, Mingo Junction, Bellaire, Martins Ferry and Toronto.

Increased costs of operation have made the new rates necessary, Harsh said. On April 22, 1960, the Public Utilities Commission of Ohio granted a company-wide increase to Ohio Valley Gas Co. as an emergency measure which only partially recovered increased costs of service.

The new rates, which vary for each community, would recover the remainder of the cost of serving customers. The rates are based on current figures for each

Chester Sets Licensing Of Laundromats

Ordinance Started For Fee Of $1 On Coin Machine

Chester Council Wednesday night gave first reading to an amendment to the city's licensing ordinance to cover coin - operated laundromats.

Two more readings are required. The amendment stipulates that the operator shall not be required to obtain any other license other than a general store license, which costs $15, and shall pay a fee of $1 per machine.

The city's licensing ordinance, adopted Dec. 7, 1960, did not specifically cover laundromats.

All other businesses, manufacturers, utilities, barbers, etc., are covered in the ordinance and are required to have a license.

The amendment was made to correspond with a state law adopted by the legislature in January to deal with coin-operated laundries.

Until this time, the laundromats were issued a license under Section 25 of the ordinance which covered "vending machine of any type" for the use of the general public.

Under this section, the license was based on the amount of money needed to operate the individual machine.

In other business, Council approved the applications for beer licenses for 12 establishments. The bars and the operators granted licenses were:

Carl's Place, Carl Amedeo; Johnnie's Bar, John Hayes; Turf

DiSalle's Okay Needed

Ohio Tax Stamps Near 'Dead End'

COLUMBUS, Ohio (AP)—Ohio is just a step away from ending its holdout position as the last state to use prepaid sales tax stamps.

The state Senate passed a stamp elimination bill Wednesday, 22-16. It would do away with the stamps at the close of this year. They have been used since the Ohio sales tax began in 1934.

The House approved the bill 82-51 four weeks earlier. It now goes to Gov. Michael V. DiSalle.

DiSalle, a Democrat, has called for elimination of the stamps as needless expense.

During debate, the bill's backers pointed out that Ohio is the lone state among 38 with a sales tax which still uses stamps.

Sen. Oliver Ocasek, D-Summit, said printing costs in the last year amounted to about $408,400, agents' commissions to $963,745 and redemptions by religious and charity organizations (2 per cent of the stamps' face value) to $3.7 million.

Merchants presently get a 2 per cent discount for buying the stamps before issuing them with each sale of 31 cents or more. Attempts failed that would have deleted or modified a provision in the bill giving merchants a 1 per cent discount for collecting the tax and a 1 per cent bonus for monthly advance payments based on estimated sales.

The bill also restores a 2 per cent discount for automobile dealers, eliminated in 1959 when the legislature reduced the size of the stamps and cut the redemption value from 3 to 2 per cent.

For the third day in a row, legislators overrode a DiSalle veto. In fact, the Senate tried to make it two in one day, but the House refused to go along with the second attempt.

The veto that was overridden involved bill allowing the Public Utilities Commission of Ohio (PUCO) to split the cost of railroad crossing protective equipment among the railroads, political subdivisions such as cities or villages, and the state. In the Senate the vote was 32-6; in the House 92-31.

Lisbon Union, Plant Reach Pay Accord

LISBON — A mutual agreement was reached Wednesday afternoon by the union and management in proposed economies to keep the Thomas Works of the H. K. Porter Co. in operation. The firm requested that a 7-cent hourly pay increase due employes in July be withheld and a payroll reduction of $1,200 per month be accepted by the union.

James Zboyvosky, plant manager, said the agreement had been reached. He said the company and Eugene Johnson, industrial relations representative of the International United Brick and Clay Workers and the local union would release a statement of details.

The company had canceled orders with suppliers but this morning was re-ordering the materials so it can avoid a shutdown.

Potters Head For Florida Convention

61 From District To Attend Session Opening Monday

Most of the 61 delegates from East Liverpool area locals are en route today to Miami Beach, Fla., to await the opening Monday of the 67th annual convention of the International Brotherhood of Operative Potters.

The union's 12-member Executive Board, comprised of the international officers, opened its pre-convention meeting today.

The IBOP expects a total of approximately 225 delegates from all parts of the United States and several provinces of Canada. The convention may adjourn by next weekend.

One of the highlights will be installation of officers for new terms starting Aug. 1. The officers, headed by E. L. Wheatley, president, were named in a general election in May.

Under a constitutuional change approved at the last convention, terms will be for four years. Previously, terms were two years.

There will be two changes in the official lineup. William Rail of Huntington Park, Calif., will be installed as second vice president, succeeding George Pace of South Gate, Calif., who died June 15 after a three-year illness. In charge of the IBOP's West Coast office since 1953, Mr. Pace did not run for a new term because of ill health.

Rail now is 10th vice president. He will be succeeded by Bernard Rowbottom of Redlands, Calif., a

Harold Sneddon, local manager, was to convey the utility's request to Mayor Bert Goodballet today for the city Council session. Negotiations for the previous franchise were started in January 1960.

Other towns involved are Steubenville, Yorkville, Tiltonsville, Shadyside, Wellsville, Bridgeport, Mingo Junction, Bellaire, Martins Ferry and Toronto.

Increased costs of operation have made the new rates necessary, Harsh said. On April 22, 1960, the Public Utilities Commission of Ohio granted a company-wide increase to Ohio Valley Gas Co. as an emergency measure which only partially recovered increased costs of service.

The new rates, which vary for each community, would recover the remainder of the cost of serving customers. The rates are based on current figures for each

Chester Sets Licensing Of Laundromats

Ordinance Started For Fee Of $1 On Coin Machine

Chester Council Wednesday night gave first reading to an amendment to the city's licensing ordinance to cover coin - operated laundromats.

Two more readings are required. The amendment stipulates that the operator shall not be required to obtain any other license other than a general store license, which costs $15, and shall pay a fee of $1 per machine.

The city's licensing ordinance, adopted Dec. 7, 1960, did not specifically cover laundromats.

All other businesses, manufacturers, utilities, barbers, etc., are covered in the ordinance and are required to have a license.

The amendment was made to correspond with a state law adopted by the legislature in January to deal with coin-operated laundries.

Until this time, the laundromats were issued a license under Section 25 of the ordinance which covered "vending machine of any type" for the use of the general public.

Under this section, the license was based on the amount of money needed to operate the individual machine.

In other business, Council approved the applications for beer licenses for 12 establishments. The bars and the operators granted licenses were:

Carl's Place, Carl Amedeo; Johnnie's Bar, John Hayes; Turf

DiSalle's Okay Needed

Ohio Tax Stamps Near 'Dead End'

COLUMBUS, Ohio (AP)—Ohio is just a step away from ending its holdout position as the last state to use prepaid sales tax stamps.

The state Senate passed a stamp elimination bill Wednesday, 22-16. It would do away with the stamps at the close of this year. They have been used since the Ohio sales tax began in 1934.

The House approved the bill 82-51 four weeks earlier. It now goes to Gov. Michael V. DiSalle.

DiSalle, a Democrat, has called for elimination of the stamps as needless expense.

During debate, the bill's backers pointed out that Ohio is the lone state among 38 with a sales tax which still uses stamps.

Sen. Oliver Ocasek, D-Summit, said printing costs in the last year amounted to about $408,400, agents' commissions to $963,745 and redemptions by religious and charity organizations (2 per cent of the stamps' face value) to $3.7 million.

Merchants presently get a 2 per cent discount for buying the stamps before issuing them with each sale of 31 cents or more. Attempts failed that would have deleted or modified a provision in the bill giving merchants a 1 per cent discount for collecting the tax and a 1 per cent bonus for monthly advance payments based on estimated sales.

The bill also restores a 2 per cent discount for automobile dealers, eliminated in 1959 when the legislature reduced the size of the stamps and cut the redemption value from 3 to 2 per cent.

For the third day in a row, legislators overrode a DiSalle veto. In fact, the Senate tried to make it two in one day, but the House refused to go along with the second attempt.

The veto that was overridden involved bill allowing the Public Utilities Commission of Ohio (PUCO) to split the cost of railroad crossing protective equipment among the railroads, political subdivisions such as cities or villages, and the state. In the Senate the vote was 32-6; in the House 92-31.

Lisbon Union, Plant Reach Pay Accord

LISBON — A mutual agreement was reached Wednesday afternoon by the union and management in proposed economies to keep the Thomas Works of the H. K. Porter Co. in operation. The firm requested that a 7-cent hourly pay increase due employes in July be withheld and a payroll reduction of $1,200 per month be accepted by the union.

James Zboyvosky, plant manager, said the agreement had been reached. He said the company and Eugene Johnson, industrial relations representative of the International United Brick and Clay Workers and the local union would release a statement of details.

The company had canceled orders with suppliers but this morning was re-ordering the materials so it can avoid a shutdown.

Potters Head For Florida Convention

61 From District To Attend Session Opening Monday

Most of the 61 delegates from East Liverpool area locals are en route today to Miami Beach, Fla., to await the opening Monday of the 67th annual convention of the International Brotherhood of Operative Potters.

The union's 12-member Executive Board, comprised of the international officers, opened its pre-convention meeting today.

The IBOP expects a total of approximately 225 delegates from all parts of the United States and several provinces of Canada. The convention may adjourn by next weekend.

One of the highlights will be installation of officers for new terms starting Aug. 1. The officers, headed by E. L. Wheatley, president, were named in a general election in May.

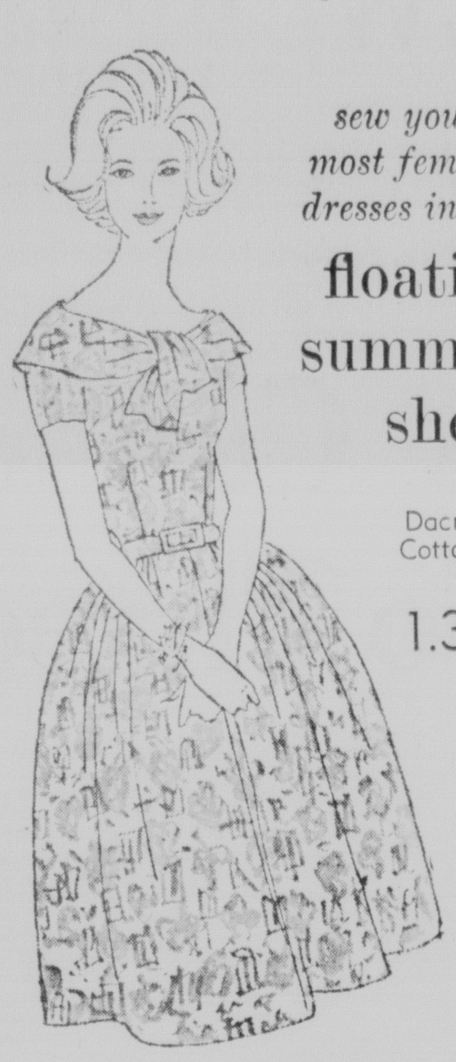

Under a constitutional change approved at the last convention, terms will be for four years. Previously, terms were two years.

There will be two changes in the official lineup. William Rail of Huntington Park, Calif., will be installed as second vice president, succeeding George Pace of South Gate, Calif., who died June 15 after a three-year illness. In charge of the IBOP's West Coast office since 1953, Mr. Pace did not run for a new term because of ill health.

Rail now is 10th vice president. He will be succeeded by Bernard Rowbottom of Redlands, Calif., a

3 More Held In Car Deals

Three more East Palestine men associated with the Valley Motor Sales Co. of East Palestine have been bound over to the Grand Jury on charges of making false statements in obtaining a motor vehicle title.

The charges against Donald E. Young, 496 E. Clark St., James T. Johnson, 526 W. Main St., and Charles R. Ludwig, 87 E. North Ave., were filed by Howard Lisk, an inspector for the State Bureau of Motor Vehicles.

Robert Grove of East Palestine is free under $2,500 bond on a similar charge. Grove is president of Valley Motor Sales.

The three other men were placed under $2,000 bond each after pleading innocent in a preliminary hearing Wednesday afternoon before County Judge James L. MacDonald at Lisbon.

Young, who is the deputy registrar of motor vehicles in East Palestine, was a bookkeeper in the firm. Johnson was a vice president and Ludwig was a salesman.

The business was closed in May by a finance company. Following an investigation, the charges against Grove were filed by County Prosecutor G. William Brokaw.

The charges against the other three came on the heals of a continuing investigation by the State Highway Patrol and Lisk.

They were released after posting bond.

Driver Freed In City Crash

James R. Ferris of Newark, a State Highway Department employe, was found not guilty by Municipal Judge Samuel M. Chertoff on charges filed by police today after a minor mishap on 6th St. near Dresden Ave.

He was cited after a collision between his state - owned car and an auto operated by Wilbert Hull of Maple Ave., Wellsville. Police accused Ferris of reckless driving by turning his vehicle from one lane to another in the one-way section of 6th St. "without ascertaining the assured clear distance."

A fender on each auto was damaged in the collision about 8:30 a. m., police said. Ferris pleaded not guilty. Ferris is working in East Liverpool in connection with the California Hollow-West End Freeway project, officers said.

A collision on Dresden Ave. Wednesday at 1:45 p. m. damaged a 1954 car driven by Martha L. Richards, 32, of 1062 Waterloo St., and a 1961 compact model driven by C. D. McCullough, 69, of 801 St. Clair Ave., retired service officer of the Columbiana County Soldiers & Sailors Relief Commission, officers said. There was damage to a fender on each auto.

Contract Let For Irondale Post Office

A Canton firm has been awarded a contract by the Post Office Department for construction of a new Post Office building in Irondale, Postmaster Gen. J. Edward Day announced today.

Signing of the contract with the J. & B. Construction Co., operated by Joseph and William Fehn, represents another step towards implementing President Kennedy's program for construction and modernization of postal facilities in the nation this year, he said.

The Canton firm will erect a $10,000 red brick and concrete building and lease it to the Post Office Department for five years with one five-year renewal option.

The modern facility, with an interior net work space of 1,014 square feet, plus a 2,000-square foot outside area for maneuvering of postal vehicles and a platform for loading and unloading of mail, will be erected adjacent to the present 40-year-old post office.

The present post office of the Jefferson County community was built about 1920 and also houses the Logan Grocery Store. The new facility will be erected on an adjoining vacant lot.

Work will begin immediately on construction with completion expected by Oct. 1, according to Joseph Fehn. The Fehn firm is now adding the finishing touches to a newly - constructed Post Office at Bowerston in Harrison County.

The Postal Department is working on a formula of utilizing the resources and investment funds of private enterprise for needed postal buildings, limiting its capital investment substantially to postal equipment.

Skies Stay Soggy As Summer Arrives

Summer arrived on time Wednesday but the showers that accompanied the new season may continue tonight and Friday.

Gas

(Continued from Page One)

ndividual community, Harsh pointed out.

The emergency rate for residential, commercial and public customers for all communities served by Ohio Valley Gas Co. is $2.65 for the first 1,000 cubic feet of gas used. 77 cents per 1,000 cubic feet for the next 99,000 cubic feet, and 74 cents per 1,000 cubic feet for the next 200,000 cubic feet.

The new rate would be different for each of the 11 communities only for the first 2,000 cubic feet of gas used, Harsh said.

Under the new ordinances, the price of natural gas for the first 2,000 cubic feet would be as follows:

Steubenville, $5.80; East Liverpool, $6.34; Yorkville, $5.84; Tiltonsville, $6.52; Shadyside, $5.78; Wellsville, $6; Bridgeport, $5.68; Mingo Junction, $5.98; Bellaire, $5.52; Martins Ferry, $5.28, and Toronto, $6.16.

For the next 298,000 cubic feet of natural gas used the new rate would be 78 cents per thousand cubic feet in the communities, and for all over 300,000 cubic feet used, the new rate would be 70 cents per thousand in all communities, along with the fuel cost adjustment clause already in existence.

Wreck

for wrist lacerations received while pulling a victim from the wreckage, police reported.

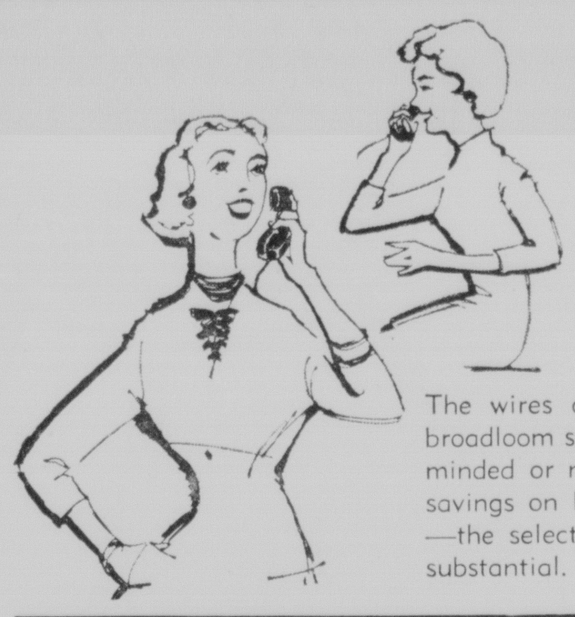

Twisted wreckage, roll steel from the tractor - trailer rig, and eggs and vegetables from the produce truck littered the scene and hundreds of spectators gathered while the victims were being extricated from the wreckage.

The Wintersville patrol reported details of the mishap are not clear because Gump, believed the only witness, still was in a state of shock.

The patrol will confer with Steubenville police and Jefferson County sheriff's deputies to attempt to pinpoint the cause.

The collision occurred four-tenths of a mile north of Steubenville where the highway narrows to two lanes from four.

3 More Held In Car Deals

Three more East Palestine men associated with the Valley Motor Sales Co. of East Palestine have been bound over to the Grand Jury on charges of making false statements in obtaining a motor vehicle title.

The charges against Donald E. Young, 496 E. Clark St., James T. Johnson, 526 W. Main St., and Charles R. Ludwig, 87 E. North Ave., were filed by Howard Lisk, an inspector for the State Bureau of Motor Vehicles.

Robert Grove of East Palestine is free under $2,500 bond on a similar charge. Grove is president of Valley Motor Sales.

The three other men were placed under $2,000 bond each after pleading innocent in a preliminary hearing Wednesday afternoon before County Judge James L. MacDonald at Lisbon.

Young, who is the deputy registrar of motor vehicles in East Palestine, was a bookkeeper in the firm. Johnson was a vice president and Ludwig was a salesman.

The business was closed in May by a finance company. Following an investigation, the charges against Grove were filed by County Prosecutor G. William Brokaw.

The charges against the other three came on the heals of a continuing investigation by the State Highway Patrol and Lisk.

They were released after posting bond.

Driver Freed In City Crash

James R. Ferris of Newark, a State Highway Department employe, was found not guilty by Municipal Judge Samuel M. Chertoff on charges filed by police today after a minor mishap on 6th St. near Dresden Ave.

He was cited after a collision between his state - owned car and an auto operated by Wilbert Hull of Maple Ave., Wellsville. Police accused Ferris of reckless driving by turning his vehicle from one lane to another in the one-way section of 6th St. "without ascertaining the assured clear distance."

A fender on each auto was damaged in the collision about 8:30 a. m., police said. Ferris pleaded not guilty. Ferris is working in East Liverpool in connection with the California Hollow-West End Freeway project, officers said.

A collision on Dresden Ave. Wednesday at 1:45 p. m. damaged a 1954 car driven by Martha L. Richards, 32, of 1062 Waterloo St., and a 1961 compact model driven by C. D. McCullough, 69, of 801 St. Clair Ave., retired service officer of the Columbiana County Soldiers & Sailors Relief Commission, officers said. There was damage to a fender on each auto.

Contract Let For Irondale Post Office

A Canton firm has been awarded a contract by the Post Office Department for construction of a new Post Office building in Irondale, Postmaster Gen. J. Edward Day announced today.

Signing of the contract with the J. & B. Construction Co., operated by Joseph and William Fehn, represents another step towards implementing President Kennedy's program for construction and modernization of postal facilities in the nation this year, he said.

The Canton firm will erect a $10,000 red brick and concrete building and lease it to the Post Office Department for five years with one five-year renewal option.

The modern facility, with an interior net work space of 1,014 square feet, plus a 2,000-square foot outside area for maneuvering of postal vehicles and a platform for loading and unloading of mail, will be erected adjacent to the present 40-year-old post office.

The present post office of the Jefferson County community was built about 1920 and also houses the Logan Grocery Store. The new facility will be erected on an adjoining vacant lot.

Work will begin immediately on construction with completion expected by Oct. 1, according to Joseph Fehn. The Fehn firm is now adding the finishing touches to a newly - constructed Post Office at Bowerston in Harrison County.

The Postal Department is working on a formula of utilizing the resources and investment funds of private enterprise for needed postal buildings, limiting its capital investment substantially to postal equipment.

Skies Stay Soggy As Summer Arrives

Summer arrived on time Wednesday but the showers that accompanied the new season may continue tonight and Friday.

Spring departed at 11:30 a. m. yesterday after a dismal performance.

The Ohio weatherman said it will be warmer this afternoon, followed by showers and scattered thunderstorms in the area tonight. Friday will be cooler with forenoon showers.

Gas

(Continued from Page One)

individual community, Harsh pointed out.

The emergency rate for residential, commercial and public customers for all communities served by Ohio Valley Gas Co. is $2.65 for the first 1,000 cubic feet of gas used, 77 cents per 1,000 cubic feet for the next 99,000 cubic feet, and 74 cents per 1,000 cubic feet for the next 200,000 cubic feet.

The new rate would be different for each of the 11 communities only for the first 2,000 cubic feet of gas used, Harsh said.

Under the new ordinances, the price of natural gas for the first 2,000 cubic feet would be as follows:

Steubenville, $5.80; East Liverpool, $6.34; Yorkville, $5.84; Tiltonsville, $6.52; Shadyside, $5.78; Wellsville, $6; Bridgeport, $5.68; Mingo Junction, $5.98; Bellaire, $5.52; Martins Ferry, $5.28, and Toronto, $6.16.

For the next 298,000 cubic feet of natural gas used the new rate would be 78 cents per thousand cubic feet in the communities, and for all over 300,000 cubic feet used, the new rate would be 70 cents per thousand in all communities, along with the fuel cost adjustment clause already in existence.

for wrist lacerations received while pulling a victim from the wreckage, police reported.

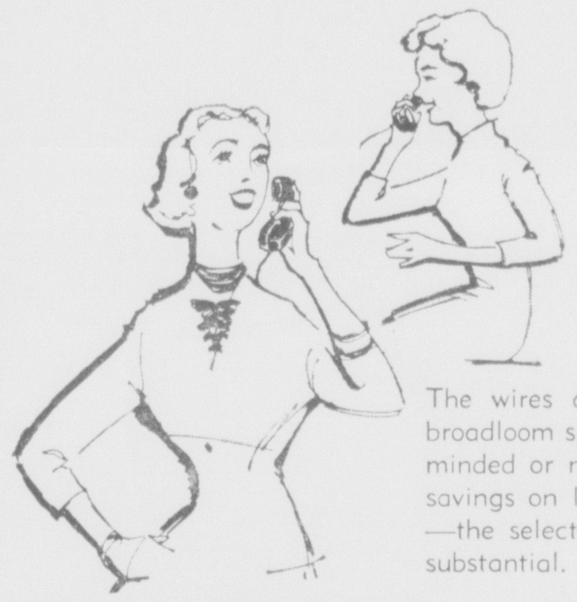

Twisted wreckage, roll steel from the tractor - trailer rig, and eggs and vegetables from the produce truck littered the scene and hundreds of spectators gathered while the victims were being extricated from the wreckage.

The Wintersville patrol reported details of the mishap are not clear because Gump, believed the only witness, still was in a state of shock.

The patrol will confer with Steubenville police and Jefferson County sheriff's deputies to attempt to pinpoint the cause.

The collision occurred four-tenths of a mile north of Steubenville where the highway narrows to two lanes from four.

Waiting For Something To Turn Up

If the next step in the nuclear testing issue is going to be resumption of tests, which now seems probable, the next step in U.S. rationalization about testing might very well be like this:

In view of the inability of negotiators to get anywhere with Russia on banning tests it looks like the best bet is to tell the Russians the next move is up to them.

This looks like a likely place to shift from the defensive to the offensive and make it clear that henceforth the United States has no intention of apologizing for possession of atomic secrets and capabilities.

Having beaten all its rivals to the A-bomb and the H-bomb, the United States now proposes to beat them to the next one, which is going to be something called a neutron-flux bomb. And if that one turns out to be a thumping success it proposes to be "fust and mostest" with whatever comes next.

IN SO DOING, the United States will be mindful of hazards but no longer will be psychopathic about them. Its fissionists disagree about the extent of the hazards anyway. In all probability, it has been panicked into believing some things that either are untrue or only fractionally true.

But if the choice lies between getting played for a sucker by Russia and Red China, or risking contamination of the atmosphere, the latter is an automatic choice.

It is not the United States, after all, that will poison the atmosphere exclusively. The British and French are experimenting with atomic fission, besides the Russians, and no one doubts the Red Chinese will be along with their version eventually, to say nothing of the clever Japanese, who probably will figure out a way to make nuclear explosions cheaper and better than anyone else, if they have enough time to pull their resources together.

Eventually, the atmosphere will be so bad no one will be able to stay alive in it, or everybody will be so anxious to stay alive they won't stand for any more exploding of this most expensive of all forms of fireworks.

But the initiative shouldn't come from the United States the next time. Wherever it does come from, the source of the initiative should be referred to Russia, which has set a historic precedent by turning down every proposal to keep control of the atomic menace. And if it were to turn out that Russia, itself, wanted to talk about a nuclear test ban, that would be fine. The United States could then say what needs so much to be said to the recalcitrant Russians some day:

"**WE HAVE NOTED** your memorandum on the danger of atomic fallout with interest. There may be something in what you say. At this particular time, we are not in a position to act on your recommendation that we cease and desist immediately. But we are taking the matter under advisement in the near future, as soon as our vice president in charge of advising returns from a trip to the moon. In the meantime, please don't call us. We may call you, if we have something to report."

In brief, there must come a day when Russia will want the United States to do something if there ever is an end to the day when the United States keeps asking Russia to do everything and keeps getting turned down cold.

Game Isn't Worth The Candle

The happiest outcome of the federal school aid argument would be the one now sighted by some of the cagier observers in Washington.

They think there will be a standoff.

They think the standoff has shaped up in the House Rules Committee, where there has been a stiffening of the Catholic attitude that calls for federal aid to parochial schools if there is going to be aid for any schools at all.

This has been one of the deeper concerns over federal aid—this danger of inflaming an issue the United States cannot afford to have inflamed. It is reason in itself to forget federal aid.

THERE IS an even more compelling reason to set it aside. As long as the possibility of getting something from Washington is dangled before people unwilling to give adequate support to their own schools, they will drag their feet.

It was not realized at first that these were the people putting the real push behind federal aid. It was not realized that the politicians in Congress helping them were less interested in education than in slicing up an other multi-billion federal melon among their "deserving poor."

That is the motive power behind the federal aid idea—to help states that never have helped themselves. Politicians in these states are panting for a chance to tap the U.S. Treasury by taking money from states that now pay their own way and diverting it to their "impoverished" districts, minus federal handling charges.

The thing that would have put a spoke in the wheel if the religious issue hadn't put one there first is the fear of southern segregationists, who otherwise would like to get their hands on more federal money, that federal control would go with federal aid. They are unwilling to give up segregation even for a federal handout. They hold the balance of decision, and they have turned cold on federal aid.

THE OTHER faction strongly supporting federal aid is composed of professional educators and educationists who have run out of patience with local control of education. Local control can be aggravating, no doubt about that. But if the alternative is creeping federal control, that could be more aggravating.

It would be come the overriding influence, just as it has been in all other areas where federal funds have become the balance-of-judgment factor in government action.

Everybody would defer to the power of Washington.

School officials would live in dread of losing their federal handout through some "error" of local administration.

The game isn't worth the candle. If the whole blithering blunder could be short-circuited in the House Rules committee, it would be a happy ending.

More Harmony Might Help

Things have not been exactly calm and peaceful at the Columbiana County courthouse in Lisbon in recent months.

Highlighted by the job dispute between Republicans and Democrats, there have been incidents which must have caused more than one taxpayer to wonder what was what.

The latest occurred this week when members of the County Welfare Advisory Board and the County Board of Visitors filed a report that the county commissioners call a public hearing to investigate administration of the County Home. The manner in which the report was released immediately drew criticism from two of the commissioners.

Differences of opinion are almost certain to appear when planning the operations for a county the size of Columbiana. They go with our two-party system of government.

But, without arguing the merits of the problems which have been thrust into the spotlight and without attempting to determine who has been right and who has been wrong, it does seem time for a more harmonious approach in general.

This doesn't mean there must be unanimous agreement on every issue, but it does seem that the taxpayers are entitled to a more business - like approach to the various problems devoid of constant bickering.

The Once Over

By H. I. Phillips

Our own honorary degree winners for 1961 follow:

Aristotle Whipsaw: Outraged by grinning politicians who jack up assessments, pile on every type of tax, vote to run you through the pressure cooker and laugh off your protests, you staged a one-man parade bearing a banner "Throw the bums out!" It was impolite and ungentlemanly, but a wonderful idea.

Hilary Pottle: You have won your place among capable Americans. You consistently managed to get your auto between parking meters without ripping fenders off the car ahead or behind. Accept the degree Master of Infinite Patience and have a glass of beer as you leave.

Maxwell Bulge: Although a TV biggy at annual conventions pledging less violence on screen, you cried out "Everybody knows this is the bunk" and refused to vote favorably. It is possible you had been drinking but it makes you a man of considerable honesty. We crown you Doctor of Originality and will you stay for crabmeat salad?

Boswell Crunch: You did not praise the appeal "Don't ask what your country can do for you, but rather what you can do for your country," and immediately turn in your 1959 sedan for a new model, order a new swimming pool and buy a racing stable. Name your degree and stick around for the frankfurter roast.

Buckingham Zilch: A building contractor who never made a policy of saving 60 cents in nails on a $20,000 house, always put the roof on firmly and installed walls thicker than cigarette paper, you qualified as contractor of the year. (You also provided a dry cellar.) We crown you Doctor of Honesty, admitting the possibility you are just crazy.

GENE LITTLER, winner of U.S. Golf Open, was runner up seven years ago, and says failure to be close ever since is due to experimenting with his game, constantly trying new strokes. Finally got back to his original style and won.

Jeff Chandler got first break in movies playing an Indian chief, Cochise. A Brooklyn boy in feathers was no easy bridge, but he crossed it.

Khrushchev says "I am the locomotive of history." But he may wind up as the caboose. He pictures himself evidently as the Soviet Casey Jones.

Fire in a Pennsylvania nudist camp brought more firemen to the scene than any blaze in years. But how do you tell a nudist camp from an ordinary American street scene? We asked one fireman if he recognized it at once as a nudist colony and he said "No, at first I though it was a summer colony supermarket."

Washington charges that repacking corporations are buying up sample wonder drugs from doctors and reselling them so mislabelled, they are dangerous. The retreaded pill and the second hand capsule?

Outdoor Grill Season

A Global Precedent On The High Seas

By Victor Riesel

A switchboard operator at the Hotel Carlyle, the White House away from the White House, was directed by Labor Secretary Arthur Goldberg at 12:30 a.m., last Friday (June 16) to notify all callers that he had gone to sleep exhausted. This was some 10 hours after he had flown into New York and had told waterfront union leaders that he had just come from a Cabinet meeting and the President wished them to avoid a port strike.

Victor Riesel

Goldberg told this to some of his closest personal friends, and admirers of John Kennedy. But the black magic didn't work.

The breaking of the spell and the rejection of the President are in themselves national news which will have greater impact than the seamen's strike itself.

There is even a greater story rolling now — far more than covering the waterfront is involved. For the real meaning of what happened you've got to cover the globe, not merely the waterfront.

A precedent has been set for other industries — the "movies," men's and ladies' clothing but especially steel and auto manufacturing and metal working around the world.

ONE THING first should be understood: A day before Goldberg realized he, for the first time, could not convince the parties to accept the traditional presidential study board, some of the ship owners had already signed with Paul Hall's seafarers group.

This pact covered some 270 vessels. The strike, therefore, hit another 230 craft. These are owned by the coalition led by the American Merchant Marine Institute.

Among those who had signed with the seafarers' bloc were such influential fleet owners as Bethlehem Steel and the Isthmian lines.

These ship owners who did make their peace agreed to many things of interest to land-lubbering observers. But one 2-page clause is especially fascinating. It says, in effect, that the seafaring unions can come aboard any ship owned by this group—even if the ship is sailing under a foreign flag.

This would be the equivalent of an auto company telling Walter Reuther he could send his organizers into one of their plants in England or Germany.

FURTHERMORE, once aboard, the seafarers' organizers now have the right to recruit members among the foreign sailors of these American ships flying, say a Liberian or panamanian or Honduran flag.

If the foreign sailors show interest in the U.S. union, there will be an NLRB election aboard the boat.

If the seafarers win, the American owners of the foreign-registered ship will have to bargain with the American union.

In turn, the union agreed that it would recognize the need of the owners to run an economic ship which can stay on the high seas and compete with other foreign fleets.

Important, too, is another clause setting up a joint labor-management commission to discuss industry dealings with Washington.

All this set a precedent for industries on land as well as on the seas, days before the strike hit the nation's ports. All unions were watching.

There are the U.S. theatrical and movie studio guilds and crafts, for example. They were aware that a lawyer named Julian Weiner, back in January 1955 told the movie industry that Liberia had been overlooked as a production base.

LIBERIA is the world's only nation which exacts no tax on businesses incorporated there but which earn their money outside the country.

Soon some film makers did incorporate in Monrovia, Liberia. They produced a picture or two elsewhere and paid no taxes on their profits. Now, American companies make about 100 less films annually in the U.S. than they did 10 years ago.

And only a few weeks ago in Rome Walter Reuther told an international congress of metal-workers (auto, steel, etc.) that the time had come to "translate international labor solidarity from a slogan into a practical, living reality."

At that congress were some leaders of the United Steelworkers, the International Association of Machinists and the International Union of Electrical Workers.

At Reuther's urging the congress, representing eight million metal workers in 27 countries, agreed that labor leaders everywhere should have the right to complain to foreign unions and manufacturers' associations in other lands about lower wages and working conditions there.

THE TARGETS here of Reuther and other American labor leaders, of course, are the U.S. companies which produce abroad and sell back here in the U.S.

What these labor leaders want is an international minimum wage law — and the right to fight for it in foreign lands wherever someone produces — either goods or services — for the American consumer.

That right was won by Paul Hall's Seafarers and the Marine Engineers Beneficial Assn. bloc days before the President's envoy to U.S. labor was rebuffed for the first time.

Meat-Potato Question

By James Marlow

WASHINGTON

The simple meat and potato question—WHY?—gets lost in the noisy East-West wrestle over Berlin. Here are some of the answers.

Since the war the West and the Soviet Union have discussed unifying Germany. They've never agreed on how. The West insists on free elections to set up a single German government. The Russians have never bought that. The result: two Germanys.

The Western powers are allied with West Germany. Russia is allied with Communist East Germany, which the West refuses to recognize as a legitimate government. The reason: It was not created through free elections.

But there are also really two Berlins. West Berlin, with its 2.5 million people, is linked to West Germany. The Communists hold East Berlin as the capital of East Germany.

But the city happens to lie 110 miles inside East Germany. Therefore, all people and supplies, bound for Berlin from the West, must pass through or over Communist territory.

The West insists these supply routes must not be interfered with. And, except for former Soviet Premier Stalin's unsuccessful effort to blockade in 1948-49, the Russians have kept the routes open.

Russia has kept control of those routes out of the hands of the East Germans even though it recognizes the Communist regime in East Germany as a sovereign government. To have done otherwise would have created an awkward situation:

What would the allies do if the East Germans, whom they don't recognize, attempted to tell them what they could or couldn't send over those supply routes? It could have produced a mess.

But the United States, Britain and France keep troops in West Berlin. They're too few to mean anything militarily.

But there's a main point involved here: the West insists it has a right of free access to Berlin for people and supplies and a right to keep troops in the city. It says those rights were agreed to by the Russians after the war.

But West Berlin has become a pain to the Communists, for various reasons.

This highly prosperous part of the city is a Western outpost and showcase in the middle of the Communist world. It is a refuge for East Germans fleeing Communism.

And the allies' troops there are a symbol of freedom—so long as West Berlin remains free it holds out hope to anti-Communists behind the Iron Curtain that they may in time become free too. The reverse of that would stifle hope.

And the Western troops there are a symbol of Western support to the West Berliners. And as long as the present situation endures, the attempt by Russia to make the East German government look like a power in its own right becomes ludicrous.

These are all reasons for Premier Khrushchev to force a change. But there's another good one: if he can force the West to make concessions on Berlin, it will weaken the confidence of the Western allies in themselves.

This is particularly true because West Berlin is a key example of Western determination and good faith in upholding the rights of the West against Communist encroachment.

So Khrushchev says those postwar agreements on Berlin are outdated by events. He wants the West to pull its troops out of West Berlin. He wants it, he says, to be a demilitarized "free city." But he won't permit any change in the status of East Berlin, where the Communists are boss.

He wants the West to recognize Communist East Germany as a legitimate government. Whether it does or not, he says, he will turn control of those access routes to Berlin over to the East Germans.

Khrushchev has made it plain the question of continuing to use those routes to Berlin would have to be settled between the West and the East Germans, whom the West insists are not a real government. This would put the West on the spot.

So long as it insists on the present arrangement, the West can insist it has the right, based on postwar agreements, to use the routes to Berlin and keep troops there.

Height Of Confusion

By David Lawrence

Ruling On Rail Workers' Case Reviewed

No more flagrant example of the confusion that arises from the arbitrary misue of the judicial power could be cited than what is set forth in the 35,000 words of conflicting views expressed by the Supreme Court of the United States in deciding this week the case of six railroad workers who had appealed for protection of their constitutional rights.

David Lawrence

They were being forced to contribute dues to a labor union which used the money for partisan political purposes contrary to the wishes and views of these members.

Did the Supreme Court decide that such a disregard of the rights of the individual to freedom of association or freedom of political belief was a violation of the Constitution? It did not.

Did the court decide to safeguard the rights of those silent workers who did not dare to protest for fear of being dismissed from the union and their jobs? It did not.

Five out of the nine justices did decide that perhaps the six workers were entitled to refund of that part of their dues which could proportionately be calculated as having been used to finance political activity disapproved of by those workers. But it was only to provide the necessary five-vote majority that Justice Douglas — after frankly disapproving of much of the majority opinion as written by Justice Brennan — decided to go along with this decision.

He said he recognized the strength of the arguments advanced in the opinions of Justices Black and Whittaker against giving a "proportional" relief to the six railroad workers but pointed out that "there is the practical problem of mustering five justices for a judgment in this case." Mr. Douglas then added:

"So I have concluded (dubitante) to agree to the one suggested by Mr. Justice Brennan, on the understanding that all relief granted will be confined to the six protesting employes."

For the benefit of those who may have forgotten their Latin, this means that Justice Douglas concurred in order to make a majority of five but retained grave doubts as to whether the majority opinion was really correct.

NO SUCH DOUBTS were expressed by the dissenters — Justices Frankfurter and Harlan, who filed one opinion, and Justice Black, who wrote another. Justice Whittaker "concurred in part and dissented in part."

Echoing to some extent the view of Justice Douglas that "some forced associations are inevitable in an industrial society," Justices Frankfurter and Harlan made the strange claim that labor unions are somewhat like the government itself.

The opinion said in part:

"Responsive to the actualities of our industrial society, in which unions as such play the role that they do, the law regards a union as a self-contained, legal personality exercising rights and subject to responsibilities wholly distinct from its individual members."

Justice Frankfurter went on to say that the expenditure of funds, despite the views of members, was analogous to that of the government which "expends revenue collected from individual taxpayers to propagandize ideas which many taxpayers oppose."

There's no power derived from the Constitution which could give a labor union such a quasi-governmental status.

The Frankfurter-Harlan opinion, moreover, uses the analogy of virtually compulsory affiliation with an "integrated" bar association. It so happens that a state has the right to say what the qualifications of a lawyer must be before he can become a part of the process of the courts or its procedures.

There really is no similarity to a labor union, because the members of a bar association perform functions supplementary to the government, while a labor union is not a part of the governmental process—at least not yet.

JUSTICE BLACK, in his dissenting opinion, did not mince words. He said previous decisions of the high court "did not hold that railroad workers could be compelled by law to forego their constitutionally protected freedom of association by participating as union 'members' against their will."

He concluded that the union shop clause in the law, as applied in this case, violates the First Amendment to the Constitution. This is just what the Georgia Supreme Court had ruled.

Oddly enough, though Congress has passed a law forbidding labor unions and corporations from making contributions to political campaigns, directly or indirectly, the Supreme Court refused in this case to take note of any illegal activity of the labor unions in fostering political propaganda.

Yet, in another case, the Supreme Court held this week that evidence illegally obtained by a state could not be used in state courts.

One wonders when the high court will take cognizance of the illegal activity of those labor unions which participate actively in politics but merely call it "educational."

Waiting For Something To Turn Up

If the next step in the nuclear testing issue is going to be resumption of tests, which now seems probable, the next step in U.S. rationalization about testing might very well be like this:

In view of the inability of negotiators to get anywhere with Russia on banning tests it looks like the best bet is to tell the Russians the next move is up to them.

This looks like a likely place to shift from the defensive to the offensive and make it clear that henceforth the United States has no intention of apologizing for possession of atomic secrets and capabilities.

Having beaten all its rivals to the A-bomb and the H-bomb, the United States now proposes to beat them to the next one, which is going to be something called a neutron-flux bomb. And if that one turns out to be a thumping success it proposes to be "fust and mostest" with whatever comes next.

IN SO DOING, the United States will be mindful of hazards but no longer will be psychopathic about them. Its fissionists disagree about the extent of the hazards anyway. In all probability, it has been panicked into believing some things that either are untrue or only fractionally true.

But if the choice lies between getting played for a sucker by Russia and Red China, or risking contamination of the atmosphere, the latter is an automatic choice.

It is not the United States, after all, that will poison the atmosphere exclusively. The British and French are experimenting with atomic fission, besides the Russians, and no one doubts the Red Chinese will be along with their version eventually, to say nothing of the clever Japanese, who probably will figure out a way to make nuclear explosions cheaper and better than anyone else, if they have enough time to pull their resources together.

Eventually, the atmosphere will be so bad no one will be able to stay alive in it, or everybody will be so anxious to stay alive they won't stand for any more exploding of this most expensive of all forms of fireworks.

But the initiative shouldn't come from the United States the next time. Wherever it does come from, the source of the initiative should be referred to Russia, which has set a historic precedent by turning down every proposal to keep control of the atomic menace. And if it were to turn out that Russia, itself, wanted to talk about a nuclear test ban, that would be fine. The United States could then say what needs so much to be said to the recalcitrant Russians some day:

"WE HAVE NOTED your memorandum on the danger of atomic fallout with interest. There may be something in what you say. At this particular time, we are not in a position to act on your recommendation that we cease and desist immediately. But we are taking the matter under advisement in the near future, as soon as our vice president in charge of advising returns from a trip to the moon. In the meantime, please don't call us. We may call you, if we have something to report."

In brief, there must come a day when Russia will want the United States to do something if there ever is an end to the day when the United States keeps asking Russia to do everything and keeps getting turned down cold.

Game Isn't Worth The Candle

The happiest outcome of the federal school aid argument would be the one now sighted by some of the cagier observers in Washington.

They think there will be a standoff.

They think the standoff has shaped up in the House Rules Committee, where there has been a stiffening of the Catholic attitude that calls for federal aid to parochial schools if there is going to be aid for any schools at all.

This has been one of the deeper concerns over federal aid—this danger of inflaming an issue the United States cannot afford to have inflamed. It is reason in itself to forget federal aid.

THERE IS an even more compelling reason to set it aside. As long as the possibility of getting something from Washington is dangled before people unwilling to give adequate support to their own schools, they will drag their feet.

It was not realized at first that these were the people putting the real push behind federal aid. It was not realized that the politicians in Congress helping them were less interested in education than in slicing up an other multi-billion federal melon among their "deserving poor."

That is the motive power behind the federal aid idea—to help states that never have helped themselves. Politicians in these states are panting for a chance to tap the U.S. Treasury by taking money from states that now pay their own way and diverting it to their "impoverished" districts, minus federal handling charges.

The thing that would have put a spoke in the wheel if the religious issue hadn't put one there first is the fear of southern segregationists, who otherwise would like to get their hands on more federal money, that federal control would go with federal aid. They are unwilling to give up segregation even for a federal handout. They hold the balance of decision, and they have turned cold on federal aid.

THE OTHER faction strongly supporting federal aid is composed of professional educators and educationists who have run out of patience with local control of education. Local control can be aggravating, no doubt about that. But if the alternative is creeping federal control, that could be more aggravating.

It would be come the overriding influence, just as it has been in all other areas where federal funds have become the balance-of-judgment factor in government action.

Everybody would defer to the power of Washington.

School officials would live in dread of losing their federal handout through some "error" of local administration.

The game isn't worth the candle. If the whole blithering blunder could be short-circuited in the House Rules committee, it would be a happy ending.

More Harmony Might Help

Things have not been exactly calm and peaceful at the Columbiana County courthouse in Lisbon in recent months.

Highlighted by the job dispute between Republicans and Democrats, there have been incidents which must have caused more than one taxpayer to wonder what was what.

The latest occurred this week when members of the County Welfare Advisory Board and the County Board of Visitors filed a report that the county commissioners call a public hearing to investigate administration of the County Home. The manner in which the report was released immediately drew criticism from two of the commissioners.

Differences of opinion are almost certain to appear when planning the operations for a county the size of Columbiana. They go with our two-party system of government.

But, without arguing the merits of the problems which have been thrust into the spotlight and without attempting to determine who has been right and who has been wrong, it does seem time for a more harmonious approach in general.

This doesn't mean there must be unanimous agreement on every issue, but it does seem that the taxpayers are entitled to a more business - like approach to the various problems devoid of constant bickering.

A Global Precedent On The High Seas

By Victor Riesel

A switchboard operator at the Hotel Carlyle, the White House away from the White House, was directed by Labor Secretary Arthur Goldberg at 12:30 a.m., last Friday (June 16) to notify all callers that he had gone to sleep exhausted. This was some 10 hours after he had flown into New York and had told waterfront union leaders that he had just come from a Cabinet meeting and the President wished them to avoid a port strike.

Victor Riesel

Goldberg told this to some of his closest personal friends, and admirers of John Kennedy. But the black magic didn't work.

The breaking of the spell and the rejection of the President are in themselves national news which will have greater impact than the seamen's strike itself.

The opinion said in part:

"Responsive to the actualities of our industrial society, in which unions as such play the role that they do, the law regards a union as a self-contained, legal personality exercising rights and subject to responsibilities wholly distinct from its individual members."

Justice Frankfurter went on to say that the expenditure of funds, despite the views of members, was analogous to that of the government which "expends revenue collected from individual taxpayers to propagandize ideas which many taxpayers oppose."

There's no power derived from the Constitution which could give a labor union such a quasi-governmental status.

The Frankfurter-Harlan opinion, moreover, uses the analogy of virtually compulsory affiliation with an "integrated" bar association. It so happens that a state has the right to say what the qualifications of a lawyer must be before he can become a part of the process of the courts or its procedures.

There really is no similarity to a labor union, because the members of a bar association perform functions supplementary to the government, while a labor union is not a part of the governmental process—at least not yet.

JUSTICE BLACK, in his dissenting opinion, did not mince words. He said previous decisions of the high court "did not hold that railroad workers could be compelled by law to forego their constitutionally protected freedom of association by participating as union 'members' against their will."

He concluded that the union shop clause in the law, as applied in this case, violates the First Amendment to the Constitution. This is just what the Georgia Supreme Court had ruled.

Oddly enough, though Congress has passed a law forbidding labor unions and corporations from making contributions to political campaigns, directly or indirectly, the Supreme Court refused in this case to take note of any illegal activity of the labor unions in fostering political propaganda.

Yet, in another case, the Supreme Court held this week that evidence illegally obtained by a state could not be used in state courts.

One wonders when the high court will take cognizance of the illegal activity of those labor unions which participate actively in politics but merely call it "educational."

Power Concern Crews Set Long Safety Record

Ohio Power Co. employes in the Eastern Division, which includes the East Liverpool District, reached another milestone in safety when they completed a million manhours of work without a disabling injury on Wednesday. The East Liverpool district has completed 11 years and 31 days without a disabling injury.

The approximately 370 employes in the division have not had a lost-time accident since Jan. 26, 1960.

The Company's Eastern Division employes, have received a number of safety awards in the past.

They received Edison Electric Institute awards for a million safe manhours in 1952, two - million in 1953, three - million in 1954 and two - million again in 1957.

Ohio Power plaques for a full year of safety were presented to the division in 1949, 1952, 1956, 1957 and last January. Two years without a disabling injury were celebrated in 1953 and 1957, three safe years were noted in 1954 and a four-year record was compiled in 1955.

Thomas J. Springer of Steubenville, division safety supervisor, explained that in more than 10 years the division has had only six lost - time injuries and none of them was the result of electrical burn or shock. He attributed much of the success of the electrical safety record to the fact that all linemen in the division are required to don their rubber gloves before climbing a pole and leave them on until they return to the ground.

2 Women Fined In Radio Thefts

LISBON — Two Warren women were fined $50 and costs each, Wednesday by Mayor Dean Stockman for petty larceny in the theft June 10 of transistor radios from the Hiscox Supply, 125 E. Lincoln Way.

Virginia Fairchild, 24, and Lillian Sawyer, 19, pleaded guilty and returned the radios.

Similar charges were filed first with the County Court here before it was learned that the mayor's court could handle the petty larceny charges.

County Judge James L. MacDonald also took their guilty pleas and gave each a suspended $50 fine after they had been picked up first on warrants issued from his court. Warrants had been served by county sheriff's deputies.

Lisbon Home Shows Evidence Of Entry

LISBON — Police are investigating an attempted burglary at the home of Norman Brosco, 424 W. Lincoln Ave.

Brosco called the police at 2 a. m. when he returned home and found a side window broken and marks indicating that a bar was used to pry open the window.

Mrs. Dorothy Kettlewell, who resides in the upstairs apartment, said she heard a noise about midnight and turned on the light. She said she heard a car pull away but didn't call police.

Drivers Are Unhurt In Rt. 267 Collision

No one apparently was injured in a collision at 8 a. m. today at the intersection of Route 267 and the Y. & O. Rd., the State Highway Patrol reported.

The patrol said the mishap, which occurred in a fog that shrouded the area, still was under investigation. It had no details, the Lisbon barracks added.

West Virginia Completes Job On Tax Changes

CHARLESTON, W. Va. (AP)—All mechanics for putting three major changes in the state tax laws have been completed, Tax Commissioner C. Howard Hardesty said.

The three changes, which will go into effect July 1, are: a $1.5 million increase in the excise on cigarettes; the cigarette sales act; and the cost of bond for collection agencies.

To add new revenue to the general school fund, the cigarette tax will be increased from 5 to 6 cents per package in compliance with a law passed by the Legislature in March.

The cigarette sales act makes it unlawful for wholesale and retail dealers to sell cigarettes below a minimum price prescribed by the Legislature. Copies of the minimum price schedule were mailed this week to 21,000 wholesale and retail outlets.

An increase in the bond on collection agencies — from $2,000 to $5,000 — also will go into effect July 1. There are 30 such agencies in the state.

Complete information and details on new procedures have been mailed to all collection agencies and tobacco dealers in the state, said Chester P. Tinsley, director of the cigarette, soft drinks and license divisions.

Long-Range Aid Plan Pinned To Cold War Crisis

WASHINGTON (AP) — Secretary of the Treasury Douglas Dillon says the administration's long-range foreign aid program was based on the assumption of continuing "cold war tension."

Dillon appealed for congressional approval of the program in testimony Wednesday before the House Foreign Affairs Committee.

He said the administration did not take into account the mounting East-West pressures over Berlin in planning the program. However, the secretary, who served in the Eisenhower administration as undersecretary of state, said the Soviet threat to Berlin was "very serious."

Dillon said the United States was working hard with its allies to "find means to progress on this question without in any way relaxing our fundamental principle, which we cannot do, to safeguard the freedom of the people of West Berlin."

The administration seeks authority to spend and lend up to $12 billion in foreign aid in the next five years. The program has run into some opposition in Congress, partly because it would loosen somewhat congressional control on foreign aid spending.

glass. The tank temperature is maintained by hot oil circulating through coils.

The oil is heated by a boiler. In addition, each barge has two diesel - driven 500-ton-per-hour unloading pumps to feed the sulphur to the steam-heated tanks on shore.

An overhead pipeline system will carry the sulphur from the barges at the docks over top of the Wellsville floodwall and railroad tracks.

The Wellsville terminal is part of an extensive program being undertaken by Freeport to move sulphur in liquid form, rather than the traditional solid form, into major consuming areas. Other terminals already have been placed in operation at Joliet, Ill., Tampa, Fla., and along the East Coast.

The sulphur is mined by a hot-water process and brought to the surface in a molten form at a temperature of about 300 degrees. Until recently, almost all of the production was then sprayed into vats and allowed to solidify before being broken up and shipped dry.

One of the advantages is that the liquid sulphur can be delivered to the user in the state needed. If delivered solid, it must be remelted. Hugh Cooper is the local terminal manager.

Kennedy called off his final meeting with Ikeda, which had been set for 11 a.m. He also decided against trying to attend a dinner that was to be given by Ikeda in his honor at the Japanese Embassy tonight.

Lester Bishop, city street helper, was granted a week's vacation with pay beginning July 16. Bishop is an hourly employe and not covered under the vacation scheduled set up for salaried employes.

Solicitor Ruth Cox Turner reported she has had no further word on a request to have various projects done in Chester under a state emergency employment program.

She said she had conferred May 22 in Charleston with Patrick B. Boggs, administrative assistant for the program, and was informed that O. A. Trout, engineer for the State Road Commission, would visit Chester to inspect the proposed work.

Mrs. Turner read a letter from Boggs acknowledging receipt of the proposed work projects and adding the proposals will be reviewed. She said she will write a letter to Boggs inquiring as to when someone will visit the city.

Jerrold Wilson, captain of the volunteer fire department, extended an invitation to city officials to participate in the firemen's parade July 29.

Whisky, Cash Taken In Tavern Burglary

Wellsville police said today an undetermined amount of change and five fifths of whisky were taken from Pop's Tavern at 17th and Main Sts., which was burglarized sometime Tuesday night or early Wednesday morning.

The money was taken from a bowling machine, juke box and cigarette machine, which had been forced open.

The burglar forced the front door lock to gain entrance. The tavern is operated by Cadiz Bets of Chester Ave.

This is the second time in about a month the establishment has been hit. The last time a burglar also got several bottles of whisky.

caster and member of Local Union 214. Rowbottom won the post in the election in May.

One of the first items of business when the convention begins will be appointment of standing committees. One of the last items on the agenda will be selection of the site for the 1962 meeting. The convention will meet in the DiLide Hotel.

The union also may make a decision on the future of its former headquarters building on W. 6th St., supplanted by a new structure on Route 7 near Beaver Local School. Operations have been divided between the two buildings for several weeks.

IBOP officials said last winter the future of the W. 6th St. building might be decided at the convention. The new building was dedicated May 6.

She said some 20 Midland couples will appear on the teen-age dance program. Friday evening sessions at the center in the Borough Building will continue through July 14 or July 15 and close with a special event, she said.

The center usually reopens with its back-to-school hop in September.

Rig Carrying Cargo Of Girders Upsets

A tractor-trailer loaded with an estimated 12 tons of steel girders turned over on its side and slid into a ditch at Laughlins Corners Wednesday about 10:30 p. m., spilling its load.

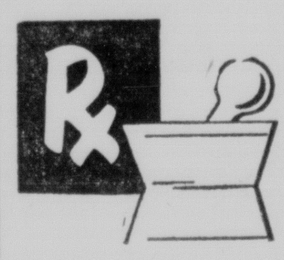

Dale Burton, 929 N. Market St., Lisbon, was the driver, according to the Carnegie barracks of the Pennsylvania State Police. He was unhurt but the cab of the tractor was smashed.

The truck was pulled out about 4 a. m. and the steel is expected to be hauled away today. Burton was pulling a M. & W. Trailer from Canton, headed east on Route 30.

Nice for lunch: creamed dried beef served over cooked snap beans. Add triangles of thin, crisp buttered toast.

Winners Named In Midland Scout Neighborhood Contest

Winners of the contest to name neighborhood areas were announced at the final meeting of the season for the Midland Area Girl Scout District committee Tuesday afternoon at the home of Mrs. George Mastrovich of the Fairview - Industry Rd., chairman.

Mrs. William Marcum of Midland won with "Midland Hill and Valley Neighborhood" for the Midland and Midland Heights area, and Mrs. Paul Rice Jr. of Ohio Township, was the winner for naming the Ohio View and Ohio Township areas "Double O" Neighborhood."

Mrs. Richard Graham, neighborhood chairman of the "Double O", gave a report, which was approved by Mrs. Richard Carr of New Brighton, Midland District field director. Mrs. Graham pointed to the urgent need of leaders, assistants and committee members for the area. Interested women may contact Mrs. Graham at NE. 4-8501 or Mrs. Mastrovich, NE. 4-8131.

Mrs. Lloyd Hendry, cookie chairman, gave the final report and said that the sale fell below last year's, due to the unemployment situation. Mrs. Mastrovich commended Mrs. Hendry for her effort in the yearly project.

Mrs. Elmer Gifford, Day Camp director, announced that over 200 girls are registered for the sessions next Monday through Friday at the El-Ru Terrace, across from the Four-Mile United Presbyterian Church on the Tuscarawas Rd. The theme is "Heritage Trails."

Mrs. William Black, neighborhood chairman of the Midland Hill and Valley, gave a report and said she is calling upon interested persons, especially girls 18 or older who would like to work with Girl Scouts. Her number is MI. 3-3119.

Mrs. Mastrovich named four tentative chairmen for special assignment for 1961-62. They include Mrs. George Myers of Ohio View calender; Mrs. John Verzella of Ohio Township, District Juliette Low; Mrs. Elmer Gifford of Tuscarawas Rd., Day Camp, and Mrs. Mastrovich, cookie.

A field trip is being planned for the district at the Crucible Park and will feature swimming and a picnic lunch. The event will be held in August.

Registration of Girl Scouts was the main discussion. In 1948 there were 100 girls and 18 adults registered in the Midland District, which included Midland, Midland Heights, Ohio View and Ohio Township. Today there are over 400 girls and 105 adults and 22 active troops with a good prospect of more in the fall, Mrs. Mastrovich said.

Mrs. Mastrovich announced that as of Sept. 1, she will resign as chairman and also as assistant leader of Troop 267 of Ohio Township. Mrs. Mastrovich is the mother of three daughters and is expecting her fourth child in September. She has been active in the Girl Scout movement for five years and has served as chairman of the Midland District for the past two years.

glass. The tank temperature is maintained by hot oil circulating through coils.

The oil is heated by a boiler. In addition, each barge has two diesel - driven 500-ton-per-hour unloading pumps to feed the sulphur to the steam-heated tanks on shore.

An overhead pipeline system will carry the sulphur from the barges at the docks over top of the Wellsville floodwall and railroad tracks.

The Wellsville terminal is part of an extensive program being undertaken by Freeport to move sulphur in liquid form, rather than the traditional solid form, into major consuming areas. Other terminals already have been placed in operation at Joliet, Ill., Tampa, Fla., and along the East Coast.

The sulphur is mined by a hot-water process and brought to the surface in a molten form at a temperature of about 300 degrees. Until recently, almost all of the production was then sprayed into vats and allowed to solidify before being broken up and shipped dry.

One of the advantages is that the liquid sulphur can be delivered to the user in the state needed. If delivered solid, it must be remelted. Hugh Cooper is the local terminal manager.

The President began using his crutches on a regular basis June 8.

Dr. Wade was called to Florida to examine Kennedy on June 11.

The White House said his findings concurred with those of Dr. Travell.

Among the engagements Kennedy had made for today was a further conference with Prime Minister Ikeda, and a meeting with U.S. Ambassador Llewellyn Thompson before Thompson's return to Moscow.

Kennedy called off his final meeting with Ikeda, which had been set for 11 a.m. He also decided against trying to attend a dinner that was to be given by Ikeda in his honor at the Japanese Embassy tonight.

Laos Princes Decision Due

ZURICH, Switzerland (AP) — Three Laotian princes were expected to decide today whether to join in building a neutral Laos or to continue their country's potentially explosive state of division.

Agreement on who would take charge and allotment of military posts should the three princes agree on a coalition government remained key issues in the bargaining.

The princes—pro-Western Boun Oum, neutralist Souvanna Phouma and pro-Communist Souphanouvong—did agree that the talks would end today, even if they could not reach a decision on the fate of the war-weary Southeast Asia nation.

Chief aides completed the draft of a joint resolution to be submitted for the princes' approval. All three factions issued optimistic statements, and Gen. Phoumi Nosansavan the real power in the government of Boun Oum, appeared more optimistic than the others.

It was expected, however, that in any coalition government the conservative faction friendly to the West would get less power than the neutralist and pro-Communist factions, both of which are backed by Red China and the Soviet Union.

Souvanna Phouma still appears to have the best chance of heading a coalition government.

Laos Princes Decision Due

ZURICH, Switzerland (AP) — Three Laotian princes were expected to decide today whether to join in building a neutral Laos or to continue their country's potentially explosive state of division.

Agreement on who would take charge and allotment of military posts should the three princes agree on a coalition government remained key issues in the bargaining.

The princes—pro-Western Boun Oum, neutralist Souvanna Phouma and pro-Communist Souphanouvong—did agree that the talks would end today, even if they could not reach a decision on the fate of the war-weary Southeast Asia nation.

Chief aides completed the draft of a joint resolution to be submitted for the princes' approval. All three factions issued optimistic statements, and Gen. Phoumi Nosansavan the real power in the government of Boun Oum, appeared more optimistic than the others.

It was expected, however, that in any coalition government the conservative faction friendly to the West would get less power than the neutralist and pro-Communist factions, both of which are backed by Red China and the Soviet Union.

Souvanna Phouma still appears to have the best chance of heading a coalition government.

Longshoremen's Stoppage Ends; Maritime Worse

NEW YORK (AP)—Longshoremen return to the docks today after a one-day work stoppage that crippled the port of New York.

But the week-old nationwide maritime strike grew worse. The number of immobilized American-flag ships rose to at least 150 in 30 ports on the East, West and Gulf coasts.

Negotiations were in a stalemate as the impact of the strike deepened. More industries — especially oil plants—were hit.

A group of oil producers in Texas asked President Kennedy to invoke the Taft-Hartley Act and obtain a court order for an 80-day cooling-off period.

The longshoremen at a mass meeting Wednesday were urged by their leaders to support the strike of 85,000 ships' officers and crewmen. But there was some rank-and-file opposition.

The ILA is not directly involved in the strike, but its members have been refusing to cross maritime union picket lines.

Button Gwinnett was one of Georgia's three signers of the Declaration of Independence. His signature is now worth considerably more to autograph collectors than is George Washington's.

Army Will Send Top Officers To Governors Talks

Miss Illa Arlena Goempel Weds James W. Lawrence

A neighborhood romance culminated in marriage when Miss Illa ArLena Goempel became the bride of James William Lawrence on June 10 at 7:30 o'clock in the Grace United Presbyterian Church.

The bride is the daughter of Mr. and Mrs. Jacob G. Goempel, 207 Haywood St., and her husband's parents are Mr. and Mrs. Earl Lawrence, 220 Haywood St.

The Rev. Edward Phinn, pastor, officiated for the double - ring ceremony before an altar banked with ferns, palms, vases of white pompoms and seven-branch candelabra. Satin bows marked the family pews.

Mrs. Martha White, church organist, presented a half-hour of wedding music. Richard Smith sang "The Lord's Prayer," "Entreat Me Not to Leave Thee" and "A Wedding Benediction."

The bride was escorted to the altar and given in marriage by her father. Her floor-length gown was an Alfred Angelo origin of silk organza and Chantilly lace. The fitted bodice was designed with a scalloped Sabrina neckline and long, pointed sleeves.

The bouffant skirt, which ended in a full chapel train, featured a scalloped lace organza overskirt, trimmed with a wide border of lace and caught up at intervals with self-roses.

Her fingertip veil of imported silk illusion was held in place by a queen's crown of cut crystals. She carried a cascade arrangement of white carnations and lily-of-the-valley, centered with a white orchid and tied with satin streamers.

Observing the traditions, she carried the handkerchief belonging to her great - grandmother, Mrs. John A. Herbert. The sixpence in her shoe was brought from England by her husband when he was in the service.

Miss Doris Christen, cousin of the bride, was maid of honor. Bridesmaids were Mrs. Charmaine Watson, Mrs. Peggy Markanton, sister of the bridegroom, and Miss Carol Simcox. Miss Doris Harker, cousin of the bride, was junior bridesmaid.

Their intermission - length gowns of silk organza featured pastel shades of lilac, yellow, green, blue and pink. The fitted bodices were fashioned with scoop necklines and short sleeves. The skirts were styled with wide inserts of ruffled organza, caught with self - roses, which formed back accent. They wore matching organza picture hats and shoes dyed to match.

They carried white, spray baskets of carnations and daisies, with tips tinted to harmonize with their costumes. Gifts from the bride were white gloves and necklaces of white gold chains with pendents of carved ivory roses.

Debby Markanton, niece of the bridegroom, was flower girl and appeared in a lilac color party dress with headband of white roses. She carried a white basket of rose petals. She received white gloves and a heart necklace from the bride.

Richard Simballa was best man. Ushers were Raymond Watson, Thomas Lawrence, brother of the bridegroom, and John Goempel, the bride's brother. Bruce Goempel, another brother of the bride, was junior usher. They received billfolds from the bridegroom.

The bride's mother chose a pink, chiffon dress and the mother of the bridegroom was attired in a blue dacron dress. White accessories and orchid corsages complemented their costumes.

A reception for 350 was held in the social rooms. A five-tier cake, topped with a bridal couple, centered the buffet table, covered with a lilac cloth trimmed with pink lace ribbon and rosebuds. Satin bows, which matched the attendants costumes, decorated the gift table.

Aides were Mrs. Laird Christen, aunt of the bride; Mrs. Joseph Shank and Mrs. John Lucas, her great-aunts, and Mrs. Harold Baldwin, Mrs. Morland Flora and Mrs. Harold Boram, aunts of the bridegroom.

Mrs. Robert Christen, cousin of the bride, and Mrs. Della Rhine, another great-aunt, were at the guest register.

Out-of-town guests were from McKeesport, Pittsburgh, Hooks-

town, Beaver Falls, Beaver, Midland, East Palestine, Salineville, Wellsville, New Martinsville, Industry, New Brighton, Newell and Chester.

For her honeymoon trip through the Western States, the bride wore a blue dacron and cotton sheath with matching jacket, white accessories and her bridal orchids.

The bride is a 1959 graduate of East Liverpool High School and was formerly employed at the Pearl China Co.

Her husband was graduated in 1954 and completed three years service in the Army. He is employed at the Crucible Steel Co. of Midland.

They will reside in a newly-furnished apartment on Staunton Ave., Glenmoor.

The parents of the bridegroom entertained with the rehearsal party at the home of their daughter and son-in-law, Mr. and Mrs. John Markanton, of Apples Corners. An arrangement of pastel carnations and white dahlias centered the table.

Longshoremen's Stoppage Ends; Maritime Worse

NEW YORK (AP)—Longshoremen return to the docks today after a one-day work stoppage that crippled the port of New York.

But the week-old nationwide maritime strike grew worse. The number of immobilized American-flag ships rose to at least 150 in 30 ports on the East, West and Gulf coasts.

Negotiations were in a stalemate as the impact of the strike deepened. More industries — especially oil plants—were hit.

A group of oil producers in Texas asked President Kennedy to invoke the Taft-Hartley Act and obtain a court order for an 80-day cooling-off period.

The longshoremen at a mass meeting Wednesday were urged by their leaders to support the strike of 85,000 ships' officers and crewmen. But there was some rank-and-file opposition.

The ILA is not directly involved in the strike, but its members have been refusing to cross maritime union picket lines.

Button Gwinnett was one of Georgia's three signers of the Declaration of Independence. His signature is now worth considerably more to autograph collectors than is George Washington's.

Army Will Send Top Officers To Governors Talks

WASHINGTON (AP) — The Army is sending high-level officers to the annual Governors Conference in Honolulu to do missionary work for its new plan to fashion a 10-division quick reaction force from the National Guard and reserve.

The nation's governors will meet in the Hawaiian capital starting Monday. Army representatives are expected to make their case before the conference's National Guard Committee, headed by Gov. Ernest Vandiver of Georgia.

The plan may take some selling. While some Guard divisions will be chosen for strengthening with added manpower, intensified training and the latest equipment, others will suffer losses in revisions of strength within manpower and budgetary limitations.

Keep In Trim

By IDA JEAN KAIN

Lifted Ribcage Seen Key To Good Figure

The diaphragm just loves to settle down toward the waist, and the closer the last rib nestles into the waistline, the dumpier you look ... and feel.

Ida Jean Kain

You probably don't yearn to be the height of fashion, other things being infinitely more important — but every woman wants to look well in her clothes. So, lift the ribcage. Get the knack of pulling the ribs up out of the waist.

Keep supple through the entire midsection and the long-waisted torso features this season can help you to look beautifully slim. If you are short - waisted it is more important than ever to keep flexible through the middle measurement.

—:—

TODAY'S STRETCH bends are doubly rewarding, for they not only help to pull out the bulge twixt waist and wishbone, but stretching combined with smooth side - bending makes for supple slimness.

Start with a limbering cross-to-fly movement. It's freeing.

Position: Standing, feet parallel and apart, arms down and crossed at wrists in front of body.

Movement: Go up on your toes as you fling arms out to sides, pulling s-l-i-m thru the middle measurement. Feel your ribs lift! Come down, re-cross hands — swing out again, making it a free, easy motion. The trick is to keep shoulders relaxed and at ease.

To get the feel of just what you are aiming to accomplish, try a measured stretch against the wall.

Position: Stand an inch or two from the wall, with the left side toward the wall, arm raised high against wall.

Movement: Stretch muscularly from well below the waistline, pushing arm up the wall. Arm action is incidental — center the upstretch through the middle measurement. Repeat routine six times and with each stretch elongate the middle measurement.

Add a definite sideward bend. Position: Standing, feet well apart, arms upstretched overhead, right hand clasping left wrist.

—:—

MOVEMENT: Stretching slim through the middle, bend toward the right, pulling with right hand ...hold. Back to center, change position of hands, stretch slim and bend toward the left, continuing 10 or 12 times.

Fit the action to words — slim, supple, pliant, lissome, lithe and young! Stretch and bend daily in a joyous, freeing action and you can't feel down in the dumps or look stodgy.

Send a long stamped, self-addressed envelope for leaflet "For A Slimmer Midriff." Address your request to Ida Jean Kain, in care of this newspaper. Postcard requests cannot be answered.

Senate Backing Of U.S. Policy

Javits Offers Resolution For Continued Berlin Aid

WASHINGTON (AP) — Sen. Jacob K. Javits, R-N.Y., offered a resolution today to put the Senate on record as backing a firm policy for continued support of West Berlin.

He said it would help erase "any ambiguity in U.S. policy" that may have been raised by the suggestion of Senate Democratic Leader Mike Mansfield of Montana for an internationally protected "free city" of both East and West Berlin.

In a speech prepared for delivery in the continuing debate over the Berlin crisis, Javits said that if Mansfield's suggestion were accepted, "all of Berlin would be Communist in six months—and Germany would be divided forever."

The United States, Javits declared, must safeguard its obligation to remain in Berlin with the same coolness and the same determination that the Russians are using, not only on that front, but on others."

"I would be the last to say that this is not without risk," the New York Republican continued, "but I would be the first to say that it is a risk which if not taken is likely to lead to reverses far worse in character — and could lead to defeat."

Sen. John Sherman Cooper, R-Ky., proposed that President Kennedy form a bipartisan consultative committee of foreign policy experts for "a full review and consideration of every aspect of the German and Berlin issues."

He suggested such a group, which would include former Republican Secretary of State Christian A. Herter and former Democratic Secretary Dean Acheson, work under Secretary of State Dean Rusk and consult with former Presidents Dwight D. Eisenhower and Harry S. Truman.

Such a committee, Cooper said, would provide Kennedy with "the broadest base of support for the decisions he will be required to make" on Berlin.

VA Cites Factors For High Dividends On Life Insurance

WASHINGTON (AP)—How can the Veterans Administration pay such high dividends on its participating life insurance policies?

That question comes up repeatedly, especially this year as the VA is paying not only its regular annual insurance dividends but also will pay a special dividend amounting to 80 per cent of the regular distribution.

Together, the 1961 payments will total almost $500 million.

The regular 1961 annual dividends were distributed or credited to policyholders by March 17 — some $258.5 million to about 5.06 million veterans—instead of being spread as usual through the year.

The first special dividends since annual dividends were instituted in 1952 will total about $230 million. The first checks are to go in the mails late this month with completion of the payments now scheduled for about Aug. 1 instead of the earlier announced goal of Labor Day.

Officials say there are several contributing factors to VA's ability to pay such dividends:

1. The laws which established the insurance programs fixed the mortality rates at high levels which prevailed in the 1860s and present death rates are much lower. Thus higher premiums are required and relatively large dividends are paid.

2. The government pays the administrative (overhead) costs of the programs and does not charge them to the insurance trust funds.

3. Claims arising from extra hazardous military duty ultimately are paid from appropriated funds and not charged against the trust funds.

The policies on which dividends are paid are largely U.S. Government Life Insurance (USGLI) primarily held by World War I veterans and National Service Life Insurance (NSLI) primarily held by World War II veterans.

No new NSLI or USGLI policies may be issued though lapsed policies may be reinstated by complying with requirements.

The VA has other insurance programs but they do not have general dividend participation policies.

Japan Asks Middleman Role For U.S. Aid Plan In Asia

WASHINGTON (AP) — A suggestion that Japan act as middleman for U.S. aid programs in Southeast Asia has been put forward informally by Japanese Prime Minister Hayato Ikeda.

The Japanese leader was due to complete his formal consultations here with a final 45-minute working session with President Kennedy today.

He advanced the idea of Japanese-American partnership in Asian economic development programs during a conversation on Wednesday with Sen. Hiram Fong, R-Hawaii.

Because of long associations, he said, Japanese understand Americans as few other Asians do. If the United States was willing to finance the projects, Japanese technical skills could be put to work in carrying out economic development programs, he suggested.

The plan was similar in many respects to proposals previously advanced by former Japanese Prime Minister Nobusuke Kishi. The United States turned down the Kishi plan.

Ikeda and Kennedy completed the bulk of their consultations Wednesday in a two-hour conference aboard the presidential yacht, Honey Fitz.

Chief topics were closer consultations between Japan and the United States, economic development programs for the Ryuku Islands, where the United States maintains a major base on Okinawa, and international trade problems.

How Can I?

By ANNE ASHLEY

Q. Do you have any ideas for patching some small holes in a linoleum floor?

A. One good idea is to carefully fill the holes with a mixture of finely chopped cork and liquid glue, which is permitted to dry thoroughly and then given a coat of clear varnish.

Q. How can I prevent the scattering of crumbs when running bread through the food chopper?

A. Fasten a paper bag over the opening of the chopper with a rubber band.

Keep In Trim

By IDA JEAN KAIN

Lifted Ribcage Seen Key To Good Figure

The diaphragm just loves to settle down toward the waist, and the closer the last rib nestles into the waistline, the dumpier you look ... and feel.

Ida Jean Kain

You probably don't yearn to be the height of fashion, other things being infinitely more important — but every woman wants to look well in her clothes. So, lift the ribcage. Get the knack of pulling the ribs up out of the waist.

Keep supple through the entire midsection and the long-waisted torso features this season can help you to look beautifully slim. If you are short - waisted it is more important than ever to keep flexible through the middle measurement.

—:—

TODAY'S STRETCH bends are doubly rewarding, for they not only help to pull out the bulge twixt waist and wishbone, but stretching combined with smooth side - bending makes for supple slimness.

Start with a limbering cross-to-fly movement. It's freeing.

Position: Standing, feet parallel and apart, arms down and crossed at wrists in front of body.

Movement: Go up on your toes as you fling arms out to sides, pulling s-l-i-m thru the middle measurement. Feel your ribs lift! Come down, re-cross hands — swing out again, making it a free, easy motion. The trick is to keep shoulders relaxed and at ease.

To get the feel of just what you are aiming to accomplish, try a measured stretch against the wall.

Position: Stand an inch or two from the wall, with the left side toward the wall, arm raised high against wall.

Movement: Stretch muscularly from well below the waistline, pushing arm up the wall. Arm action is incidental — center the upstretch through the middle measurement. Repeat routine six times and with each stretch elongate the middle measurement.

Add a definite sideward bend. Position: Standing, feet well apart, arms upstretched overhead, right hand clasping left wrist.

—:—

MOVEMENT: Stretching slim through the middle, bend toward the right, pulling with right hand ...hold. Back to center, change position of hands, stretch slim and bend toward the left, continuing 10 or 12 times.

Fit the action to words — slim, supple, pliant, lissome, lithe and young! Stretch and bend daily in a joyous, freeing action and you can't feel down in the dumps or look stodgy.

Send a long stamped, self-addressed envelope for leaflet "For A Slimmer Midriff." Address your request to Ida Jean Kain, in care of this newspaper. Postcard requests cannot be answered.

Senate Backing Of U.S. Policy

Javits Offers Resolution For Continued Berlin Aid

WASHINGTON (AP) — Sen. Jacob K. Javits, R-N.Y., offered a resolution today to put the Senate on record as backing a firm policy for continued support of West Berlin.

He said it would help erase "any ambiguity in U.S. policy" that may have been raised by the suggestion of Senate Democratic Leader Mike Mansfield of Montana for an internationally protected "free city" of both East and West Berlin.

In a speech prepared for delivery in the continuing debate over the Berlin crisis, Javits said that if Mansfield's suggestion were accepted, "all of Berlin would be Communist in six months—and Germany would be divided forever."

The United States, Javits declared, must safeguard its obligation to remain in Berlin with the same coolness and the same determination that the Russians are using, not only on that front, but on others."

"I would be the last to say that this is not without risk," the New York Republican continued, "but I would be the first to say that it is a risk which if not taken is likely to lead to reverses far worse in character — and could lead to defeat."

Sen. John Sherman Cooper, R-Ky., proposed that President Kennedy form a bipartisan consultative committee of foreign policy experts for "a full review and consideration of every aspect of the German and Berlin issues."

He suggested such a group, which would include former Republican Secretary of State Christian A. Herter and former Democratic Secretary Dean Acheson, work under Secretary of State Dean Rusk and consult with former Presidents Dwight D. Eisenhower and Harry S. Truman.

Such a committee, Cooper said, would provide Kennedy with "the broadest base of support for the decisions he will be required to make" on Berlin.

VA Cites Factors For High Dividends On Life Insurance

WASHINGTON (AP)—How can the Veterans Administration pay such high dividends on its participating life insurance policies?

That question comes up repeatedly, especially this year as the VA is paying not only its regular annual insurance dividends but also will pay a special dividend amounting to 80 per cent of the regular distribution.

Together, the 1961 payments will total almost $500 million.

The regular 1961 annual dividends were distributed or credited to policyholders by March 17 — some $258.5 million to about 5.06 million veterans—instead of being spread as usual through the year.

The first special dividends since annual dividends were instituted in 1952 will total about $230 million. The first checks are to go in the mails late this month with completion of the payments now scheduled for about Aug. 1 instead of the earlier announced goal of Labor Day.

Officials say there are several contributing factors to VA's ability to pay such dividends:

1. The laws which established the insurance programs fixed the mortality rates at high levels which prevailed in the 1860s and present death rates are much lower. Thus higher premiums are required and relatively large dividends are paid.

2. The government pays the administrative (overhead) costs of the programs and does not charge them to the insurance trust funds.

3. Claims arising from extra hazardous military duty ultimately are paid from appropriated funds and not charged against the trust funds.

The policies on which dividends are paid are largely U.S. Government Life Insurance (USGLI) primarily held by World War I veterans and National Service Life Insurance (NSLI) primarily held by World War II veterans.

No new NSLI or USGLI policies may be issued though lapsed policies may be reinstated by complying with requirements.

The VA has other insurance programs but they do not have general dividend participation policies.

Japan Asks Middleman Role For U.S. Aid Plan In Asia

WASHINGTON (AP) — A suggestion that Japan act as middleman for U.S. aid programs in Southeast Asia has been put forward informally by Japanese Prime Minister Hayato Ikeda.

The Japanese leader was due to complete his formal consultations here with a final 45-minute working session with President Kennedy today.

He advanced the idea of Japanese-American partnership in Asian economic development programs during a conversation on Wednesday with Sen. Hiram Fong, R-Hawaii.

Because of long associations, he said, Japanese understand Americans as few other Asians do. If the United States was willing to finance the projects, Japanese technical skills could be put to work in carrying out economic development programs, he suggested.

The plan was similar in many respects to proposals previously advanced by former Japanese Prime Minister Nobusuke Kishi. The United States turned down the Kishi plan.

Ikeda and Kennedy completed the bulk of their consultations Wednesday in a two-hour conference aboard the presidential yacht, Honey Fitz.

Chief topics were closer consultations between Japan and the United States, economic development programs for the Ryuku Islands, where the United States maintains a major base on Okinawa, and international trade problems.

How Can I?

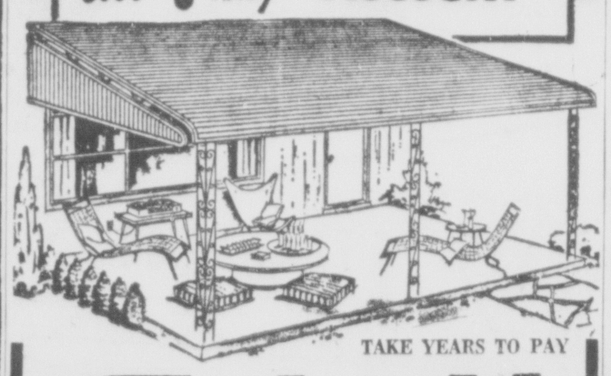

By ANNE ASHLEY

Q. Do you have any ideas for patching some small holes in a linoleum floor?

A. One good idea is to carefully fill the holes with a mixture of finely chopped cork and liquid glue, which is permitted to dry thoroughly and then given a coat of clear varnish.

Q. How can I prevent the scattering of crumbs when running bread through the food chopper?

A. Fasten a paper bag over the opening of the chopper with a rubber band.

ANSWERS YOUR PROBLEMS

Dear Ann Landers: I handle your copy for the Wichita Eagle. Your advice to the bachelor whose weekend hangovers were aggravated by the sound of the eight-year-old twins playing jacks on the bathroom floor overhead stopped me cold.

You suggested that he give the kids a concrete slab (3 feet square) so they could play jacks in the kitchen.

Ma'm, do you know how much 9 square feet of cement weighs? I do, because a few years ago I removed an old sidewalk from our back yard. It almost wrecked my back.

Please, Ann, suggest, instead, 3 square feet of plywood. The bachelor could pretty it up with paint and make it downright attractive.—HELPFUL HENRY.

-:-

Dear Henry: Close on the heels of your letter came a raft of others telling me I goofed. I'm catching it from all sides, particularly from building supply people. Yes—I DO know (now) how much a slab of concrete three feet square weighs. If the slab is only 1 inch thick, the beast weighs 112 pounds.

For my stupid mistake I am prepared to accept punishment which fits the crime. A few lashes with the wet noodle won't do. Perhaps I should walk from Chicago to Wichita carrying a 112-pound slab of cement.

The Better Half

Dear Ann: I just read the column about the GI who came home from overseas and found his wife six months pregnant. I liked the way you praised him for forgiving her.

Now, let's turn the tables. If a wife catches her husband at such shenanigans she can haul him into court, take him for all he's worth, obligate him forever and make him support the kids until they're of legal age. When she gets through with him he doesn't have a barrel to put on.

A husband can't sue for alimony no matter how much in the wrong the wife may be. In this state (New Jersey) she gets half of everything even if she never earned a dime.

So, my advice to all men is this: Before you walk down that aisle, see a lawyer.—NEWARK NEWT.

-:-

Dear Newt: The traditional role of a husband in our society is to support his wife and family. I do not agree that a caught wife should have to pay alimony, nor do I think she should be rewarded for infidelity by hauling in loot.

Your suggestion that a prospective groom should see a lawyer leaves me as cold as yesterday's mashed potatoes. If a man suspects that he needs legal protection against being taken by his ever-lovin' bride, he's better off single.

Weekend Moochers

Dear Ann: The big sport around here is water skiing. We own a summer home and enjoy it but our friends and relatives come every weekend with their friends and relatives, most of whom are strangers to us.

We love company, and we want them to come — but these people don't realize that it takes a lot of gas and oil to run a motor several hours a day.

We can't take the expense. Yet we hesitate to say anything because we don't want to appear petty.

How can we get the idea across without offending anyone? Please hurry the advice. I can see 'em comin' now.—D.E.

-:-

Dear D.E.: You can't run with both the hares and the hounds. If you "can't stand the expense," say so. They shouldn't be offended. In fact, it may even make them feel more comfortable about coming to visit.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Sievers, Smith Lead White Sox Double Sweep Of Indians

Mantle Socks 2 As Yankees Win

By ED WILKS
Associated Press Sports Writer

The Chicago White Sox, winning 13 of their last 14 games, swept a twi-night doubleheader from third place Cleveland 15-3 and 11-1 Wednesday night. Roy Sievers and Al Smith hammered five home runs between them for the sixth-place Sox, with Sievers knocking in seven runs in the opener on a pair of homers, one a pinch-hit grand slam.

Detroit was rained out at Washington and the Tigers' lead was trimmed to one game by New York. The Yankees, scoring all their runs on two homers by Mickey Mantle, won 5-3 at Kansas City. Baltimore defeated Minnesota 11-5, scoring seven runs in the ninth; and the Los Angeles Angels beat Boston 5-1, ending the Red Sox' streak at six games.

In the National League, first-place Cincinnati rapped St. Louis 9-2, but Los Angeles moved within one game of the Reds by beating the Chicago Cubs twice, 4-1 and 4-2. Milwaukee defeated San Francisco 5-3.

Both of Sievers' first-game shots were off reliever Johnny Antonelli, with the slam coming in an eight-run fourth inning that chased loser Gary Bell (4-8).

Mantle hit a three-run homer in the first inning at Kansas City and then wrapped it up for the Yanks with his 22nd home run, with a man on, in the seventh off Bob Shaw (3-6). Bud Daley (5-9) was the winner.

Jim Gentile drove in three runs, one with a homer, for the Orioles. They came from behind in the ninth when reliever Chuck Stobbs hit one batter and walked another with the bases loaded.

Right-hander Ken McBride (6-5) allowed seven hits while beating the Red Sox and broke a 1-1 tie with a single in the fourth inning off rookie Don Schwall, who lost his first against five victories.

Windhorn's First Big League Hit Sparks LA's Win

CHICAGO (AP)— A game-winning three-run double was the first major league hit for Gordon Ray Windhorn, who happened to enter organized baseball because he went to a tryout camp to keep a pal company.

Windhorn's bases-loaded double in the fourth inning drove in the first three runs of Los Angeles' 4-1 victory in the first game of a double-header with the Chicago Cubs. The Dodgers won the second game 4-2.

Windhorn also doubled in the seventh inning of the opening game. He did not appear in the second game.

The 27-year-old Windhorn is a native of Watseka, Ill., and now resides in Danville, Va.

Before becoming a professional baseball player, he was a track star at North Phoenix (Ariz.) High School. He was Arizona's state sprinting champion in three different evets.

His entry into professional baseball was unusual. He went to a New York Giants' tryout camp in 1952 just to keep a friend company. He was talked into participating in the tryout and was signed promptly by Giants scout Dutch Ruether.

Sizzling Chisox Primed To Make Run For Flag

CHICAGO (AP) — Wednesday was the biggest major league baseball day in Chicago history and it might have been the day the White Sox decided to make a serious run for the 1961 American League pennant.

The White Sox, who only June 11th were in 10th and last place, Wednesday night moved to within striking distance of first place with a homer-crammed, 15-3, 11-1 twin victory over the Cleveland Indians.

The Hose ran their winning ways to six in a row and 13 decisions in 14 starts after Chicago area fans had been treated to four major league games in a single day.

Earlier, the Cubs dropped an afternoon doubleheader to Los Angeles' Dodgers, 4-1 and 4-2 before 12,365 paid at Wrigley Field. The Sox sweep over the Indians was watched by a sellout Comiskey Park crowd of 45,125, including 37,558 paid and 7,567 Combined Jewish Appeal guests.

When their current streak began, the White Sox were in 10th place, 15½ games off the pace. They have moved up to within 10 games of the first-place Detroit Tigers and are only one game out of fourth place.

This is no surprise to either General Manager Hank Greenberg or field Manager Al Lopez.

Said Greenberg: "This is just the law of averages asserting itself. We were like a .300 hitter batting .200. You know such a hitter is going to get back up to .300—and in the process, he'll be batting .400 over a good stretch. That's just what we're doing now."

Said Lopez: "There were a lot of people souring on us early when we were floundering. I never gave up, because I knew we were a good ball club. I'm not worried about making the first division now. If we can keep going, we'll still make a helluva run for first place."

Tice Limits Foe To 1 Hit

Pitcher Jim Tice missed a no-hitter by a whisker as he hurled East End Merchants to a 6-1 triumph over Gallagher's Market in City Softball League action Wednesday.

Tice's bid for a no-hitter was foiled after 7 1-3 innings when Jim Allmon singled for the only hit by Gallagher's Market. The losers scored their tally in the fourth frame on two errors, with Allmon crossing the plate.

Tice faced 24 batters in going the route, keeping East End in the race with American Vitrified Products. Each team has a 4-0 record.

Vern Jones and Al Dawson led the winners with two hits each, with one of Jones' a double.

Howard hurled for Gallagher's, giving up eight hits.

AVP will battle Wellsville Merchants tonight.

Hancock 'Fishing Derby' Expected To Draw 300

A day of free fishing, plenty of hot dogs and soft drinks, and lots of prizes to boot!

That's the menu for the annual fishing derby of the Hancock County Fishermen's Club Saturday at Tomlinson Run State Park's lake near Pughtown.

Approximately 300 youngsters from the tri-state area are expected to register at 8 a. m. for the contest, held by the club each year to promote interest in angling among the young "Isaac Waltons."

The fishermen's club will provide 100 pounds of hot dogs — about 1,000 weiners — and 1,200 orange drinks will be furnished by the Chester Veterans of Foreign Wars for the youngsters participating.

More than 200 prizes, including fishing equipment and merchandise valued from $25 to 65 cents, will be given to winners in the afternoon.

Harl Stover, general chairman, reported a need for sportsmen to aid in serving refreshments to the youngsters while they fish for some of the trout that were stocked recently in the lake.

The boy and girl named the top winners will have their pick of a prize from two large prize boards. All contestants will be numbered and the lucky ones will receive their choices of prizes in order.

A total of 258 boys and girls participated last year, including groups from East Liverpool, Chester, Newell, Pughtown and Weirton.

Western Golf Open Set For Grand Rapids

GRAND RAPIDS, Mich. (AP)—Chances were good that the 58th Western Open Golf Tournament starting today at Blythefield Country Club could be accompanied by a shattering sound — broken par.

Western Golf Association officials say recent ideal weather has the 6,700-yard, par 36-35—71 course playing a little shorter than it was for the qualifying round Tuesday.

Estimates range from 270 to 275 as the winning score over the 72-hole four-day classic.

The forecast for only brief and widely scattered showers—late today and Friday—with a possibility they might miss the rolling golf acreage just northeast of Grand Rapids.

It was good news for the likes of National Open champion Gene Littler, muscular Arnold Palmer, South Africa's Gary Player, Sam Snead and other stalwarts in the 149-man field.

First prize means $5,000 to the winning pro, plus a gift of furniture to his lady.

Columbia University's 1962 baseball team will be captained by Doug Bohaboy, 20, from Boonton, N. J. He's a 6-foot-2 first baseman.

Slumping Indians To Face Leading Tigers In 4 Tilts

CLEVELAND (AP)—The Cleveland Indians are gearing themselves for a four-game series against the league-leading Detroit Tigers starting Friday night.

The big question as they go into that series is what effect will their four straight losses have on their morale and, especially, can they rebound from a double setback at the hands of the Chicago White Sox Wednesday night.

The Sox, known primarily for their strong defense and speed for the past several years, unleashed a barrage of six home runs, 29 hits and 26 runs in beating the Indians 15-3 and 11-1.

It dropped the Indians a full game farther behind the front-running Detroit Tigers, who were idle. Cleveland is now 2½ games off the pace.

Cleveland's leaky defense opened the door for the Sox in both games.

Roy Sievers, who had been benched because of a batting slump, was the roughest of all on the Indians, driving in a total of nine runs with two homers in the opener and another in the nightcap.

Johnny Temple and Mike de la Hoz erred on double play grounders in the fourth inning of the opener to open the flood gates. The Sox poured over eight runs before the frame was over. Seven of them were unearned.

The two errors were behind the pitching of Gary Bell, who took his eighth loss against four victories. Bell also gave up a homer to Minnie Minoso.

Johnny Antonelli relieved Bell and after he hit Al Smith with a pitch, he served up a ball to Sievers who promptly parked it into the left field stands for a grand slam homer.

Sievers hit a three-run shot in the sixth off Antonelli, who gave way to Bobby Locke. Locke pitched no-hit ball the last two innings.

Cleveland got only seven hits in the first game and reliefer Don Larson was credited with his first victory in 10 decisions with the Indians.

Cleveland got its three runs in the third inning. Vic Power, John Romano and Bubba Phillips singled for one run and Bell doubled to bring the rest.

In the nightcap, Tito Francona dropped a fly ball with the bases loaded in the second inning. Four runs came in during the inning, all unearned.

Wynn Hawkins—looking for his sixth victory—got his fifth loss instead.

Al Smith socked a two-run homer off him and another off his successor, Barry Latman.

Phillips kept Cleveland from being whitewashed by hitting his ninth homer of the year in the ninth inning. It came off winner Juan Pizarro.

Sievers got his third home run off Frank Funk.

Bob Robby Seeks New Win Streak At Waterford

Bob Robby, one of the winningest horses on the American turf, is returning to his favorite racing grounds when Waterford Park opens its summer season on Monday, July 3.

The five-year-old son of Agitator 2nd, bred in the neighboring state of Ohio by John W. Galbreath, scored twelve times last season, notching seven of those wins at Waterford Park.

He compiled four in a row during the early summer, and then returned to chalk up a "triple" a little later in the year. The old turf saw, "horses for courses", was never better exemplified than by Bob Robby who fairly dotes on the local running strip.

With some 13,000 horses engaged in annual battle over the race tracks of the nation, seeking their share of the purse money, few are able to win as many as a dozen races in a single year, with a great many unable to win at all.

Competition is much more severe than it was in the past, horses are becoming increasingly faster, and it is also difficult to keep a thoroughbred at winning pitch for a long period of time.

Despite this Bob Robby topped all horses in the land in number of winning performances in 1960, and figures to add to his laurels during the meeting just ahead at Waterford Park.

He is among 15 head which trainer H. H. Chopin is planning to assemble.

Mantle Socks 2 As Yankees Win

By ED WILKS
Associated Press Sports Writer

The Chicago White Sox, winning 13 of their last 14 games, swept a twi-night doubleheader from third place Cleveland 15-3 and 11-1 Wednesday night. Roy Sievers and Al Smith hammered five home runs between them for the sixth-place Sox, with Sievers knocking in seven runs in the opener on a pair of homers, one a pinch-hit grand slam.

Detroit was rained out at Washington and the Tigers' lead was trimmed to one game by New York. The Yankees, scoring all their runs on two homers by Mickey Mantle, won 5-3 at Kansas City. Baltimore defeated Minnesota 11-5, scoring seven runs in the ninth; and the Los Angeles Angels beat Boston 5-1, ending the Red Sox' streak at six games.

In the National League, first-place Cincinnati rapped St. Louis 9-2, but Los Angeles moved within one game of the Reds by beating the Chicago Cubs twice, 4-1 and 4-2. Milwaukee defeated San Francisco 5-3.

Both of Sievers' first-game shots were off reliever Johnny Antonelli, with the slam coming in an eight-run fourth inning that chased loser Gary Bell (4-8).

Mantle hit a three-run homer in the first inning at Kansas City and then wrapped it up for the Yanks with his 22nd home run, with a man on, in the seventh off Bob Shaw (3-6). Bud Daley (5-9) was the winner.

Jim Gentile drove in three runs, one with a homer, for the Orioles. They came from behind in the ninth when reliever Chuck Stobbs hit one batter and walked another with the bases loaded.

Right-hander Ken McBride (6-5) allowed seven hits while beating the Red Sox and broke a 1-1 tie with a single in the fourth inning off rookie Don Schwall, who lost his first against five victories.

Windhorn's First Big League Hit Sparks LA's Win

CHICAGO (AP)— A game-winning three-run double was the first major league hit for Gordon Ray Windhorn, who happened to enter organized baseball because he went to a tryout camp to keep a pal company.

Windhorn's bases-loaded double in the fourth inning drove in the first three runs of Los Angeles' 4-1 victory in the first game of a double-header with the Chicago Cubs. The Dodgers won the second game 4-2.

Windhorn also doubled in the seventh inning of the opening game. He did not appear in the second game.

The 27-year-old Windhorn is a native of Watseka, Ill., and now resides in Danville, Va.

Before becoming a professional baseball player, he was a track star at North Phoenix (Ariz.) High School. He was Arizona's state sprinting champion in three different evets.

His entry into professional baseball was unusual. He went to a New York Giants' tryout camp in 1952 just to keep a friend company. He was talked into participating in the tryout and was signed promptly by Giants scout Dutch Ruether.

Special Meeting Set

The Wellsville Babe Ruth Baseball League will hold a special meeting tonight at 8 in Daw Junior High School to map final plans for Saturday's Tag Day. All managers are to attend, and tags will be distributed. Tom Lanam is president of the loop.

GREETINGS AT HOME. Roy Sievers of the White Sox is greeted at the plate after a pinch grand slam home run during the 4th inning of the twilight game against the Cleveland Indians at Chicago Wednesday. It was his 15th. In the 6th he hit another homer with two on. Scoring in front of him is Jim Landis (1), Minnie Minoso (9) and Al Smith (16). (UPI Telephoto)

Sizzling Chisox Primed To Make Run For Flag

CHICAGO (AP) — Wednesday was the biggest major league baseball day in Chicago history and it might have been the day the White Sox decided to make a serious run for the 1961 American League pennant.

The White Sox, who only June 11th were in 10th and last place, Wednesday night moved to within striking distance of first place with a homer-crammed, 15-3, 11-1 twin victory over the Cleveland Indians.

The Hose ran their winning ways to six in a row and 13 decisions in 14 starts after Chicago area fans had been treated to four major league games in a single day.

Earlier, the Cubs dropped an afternoon doubleheader to Los Angeles' Dodgers, 4-1 and 4-2 before 12,365 paid at Wrigley Field. The Sox sweep over the Indians was watched by a sellout Comiskey Park crowd of 45,125, including 37,558 paid and 7,567 Combined Jewish Appeal guests.

When their current streak began, the White Sox were in 10th place, 15½ games off the pace. They have moved up to within 10 games of the first-place Detroit Tigers and are only one game out of fourth place.

This is no surprise to either General Manager Hank Greenberg or field Manager Al Lopez.

Said Greenberg: "This is just the law of averages asserting itself. We were like a .300 hitter batting .200. You know such a hitter is going to get back up to .300—and in the process, he'll be batting .400 over a good stretch. That's just what we're doing now."

Said Lopez: "There were a lot of people souring on us early when we were floundering. I never gave up, because I knew we were a good ball club. I'm not worried about making the first division now. If we can keep going, we'll still make a helluva run for first place."

Hancock 'Fishing Derby' Expected To Draw 300

A day of free fishing, plenty of hot dogs and soft drinks, and lots of prizes to boot!

That's the menu for the annual fishing derby of the Hancock County Fishermen's Club Saturday at Tomlinson Run State Park's lake near Pughtown.

Approximately 300 youngsters from the tri-state area are expected to register at 8 a. m. for the contest, held by the club each year to promote interest in angling among the young "Isaac Waltons."

The fishermen's club will provide 100 pounds of hot dogs — about 1,000 weiners — and 1,200 orange drinks will be furnished by the Chester Veterans of Foreign Wars for the youngsters participating.

More than 200 prizes, including fishing equipment and merchandise valued from $25 to 65 cents, will be given to winners in the afternoon.

Harl Stover, general chairman, reported a need for sportsmen to aid in serving refreshments to the youngsters while they fish for some of the trout that were stocked recently in the lake.

The boy and girl named the top winners will have their pick of a prize from two large prize boards. All contestants will be numbered and the lucky ones will receive their choices of prizes in order.

A total of 258 boys and girls participated last year, including groups from East Liverpool, Chester, Newell, Pughtown and Weirton.

Potters Savings And Cornells Win

Potters Savings & Loan Co. and Cornell's scored narrow victories in Little Minor Baseball League games Wednesday.

The bank entry defeated Taylor, Smith & Taylor, 7-6, as Steven Renner socked a late inning hit to produce the deciding run. Billy Cooper was the winning hurler in his seventh-inning relief of starter Donald Lacy.

Howell, who pitched for the losers, struck out seven and walked four. Lacy struck out five and walked three in his six-inning stint for Potters.

Cornell's pounded out six hits in defeating Potters Bank & Trust Co., 6-4. The losers got only two hits, one a double by Musuraca.

Arcuragi tripled and Savage doubled to spark Cornell's.

Tice Limits Foe To 1 Hit

Pitcher Jim Tice missed a no-hitter by a whisker as he hurled East End Merchants to a 6-1 triumph over Gallagher's Market in City Softball League action Wednesday.

Tice's bid for a no-hitter was foiled after 7 1-3 innings when Jim Allmon singled for the only hit by Gallagher's Market. The losers scored their tally in the fourth frame on two errors, with Allmon crossing the plate.

Tice faced 24 batters in going the route, keeping East End in the race with American Vitrified Products. Each team has a 4-0 record.

Vern Jones and Al Dawson led the winners with two hits each, with one of Jones' a double.

Howard hurled for Gallagher's, giving up eight hits.

AVP will battle Wellsville Merchants tonight.

Western Golf Open Set For Grand Rapids

GRAND RAPIDS, Mich. (AP)—Chances were good that the 58th Western Open Golf Tournament starting today at Blythefield Country Club could be accompanied by a shattering sound — broken par.

Western Golf Association officials say recent ideal weather has the 6,700-yard, par 36-35—71 course playing a little shorter than it was for the qualifying round Tuesday.

Estimates range from 270 to 275 as the winning score over the 72-hole four-day classic.

The forecast for only brief and widely scattered showers—late today and Friday—with a possibility they might miss the rolling golf acreage just northeast of Grand Rapids.

It was good news for the likes of National Open champion Gene Littler, muscular Arnold Palmer, South Africa's Gary Player, Sam Snead and other stalwarts in the 149-man field.

First prize means $5,000 to the winning pro, plus a gift of furniture to his lady.

Columbia University's 1962 baseball team will be captained by Doug Bohaboy, 20, from Boonton, N. J. He's a 6-foot-2 first baseman.

Slumping Indians To Face Leading Tigers In 4 Tilts

CLEVELAND (AP)—The Cleveland Indians are gearing themselves for a four-game series against the league-leading Detroit Tigers starting Friday night.

The big question as they go into that series is what effect will their four straight losses have on their morale and, especially, can they rebound from a double setback at the hands of the Chicago White Sox Wednesday night.

The Sox, known primarily for their strong defense and speed for the past several years, unleashed a barrage of six home runs, 29 hits and 26 runs in beating the Indians 15-3 and 11-1.

It dropped the Indians a full game farther behind the front-running Detroit Tigers, who were idle. Cleveland is now 2½ games off the pace.

Cleveland's leaky defense opened the door for the Sox in both games.

Roy Sievers, who had been benched because of a batting slump, was the roughest of all on the Indians, driving in a total of nine runs with two homers in the opener and another in the nightcap.

Johnny Temple and Mike de la Hoz erred on double play grounders in the fourth inning of the opener to open the flood gates. The Sox poured over eight runs before the frame was over. Seven of them were unearned.

The two errors were behind the pitching of Gary Bell, who took his eighth loss against four victories. Bell also gave up a homer to Minnie Minoso.

Johnny Antonelli relieved Bell and after he hit Al Smith with a pitch, he served up a ball to Sievers who promptly parked it into the left field stands for a grand slam homer.

Sievers hit a three-run shot in the sixth off Antonelli, who gave way to Bobby Locke. Locke pitched no-hit ball the last two innings.

Cleveland got only seven hits in the first game and reliefer Don Larson was credited with his first victory in 10 decisions with the Indians.

Cleveland got its three runs in the third inning. Vic Power, John Romano and Bubba Phillips singled for one run and Bell doubled to bring the rest.

In the nightcap, Tito Francona dropped a fly ball with the bases loaded in the second inning. Four runs came in during the inning, all unearned.

Wynn Hawkins—looking for his sixth victory—got his fifth loss instead.

Al Smith socked a two-run homer off him and another off his successor, Barry Latman.

Phillips kept Cleveland from being whitewashed by hitting his ninth homer of the year in the ninth inning. It came off winner Juan Pizarro.

Sievers got his third home run off Frank Funk.

Bob Robby Seeks New Win Streak At Waterford

Bob Robby, one of the winningest horses on the American turf, is returning to his favorite racing grounds when Waterford Park opens its summer season on Monday, July 3.

The five-year-old son of Agitator 2nd, bred in the neighboring state of Ohio by John W. Galbreath, scored twelve times last season, notching seven of those wins at Waterford Park.

He compiled four in a row during the early summer, and then returned to chalk up a "triple" a little later in the year. The old turf saw, "horses for courses", was never better exemplified than by Bob Robby who fairly dotes on the local running strip.

With some 13,000 horses engaged in annual battle over the race tracks of the nation, seeking their share of the purse money, few are able to win as many as a dozen races in a single year, with a great many unable to win at all.

Competition is much more severe than it was in the past, horses are becoming increasingly faster, and it is also difficult to keep a thoroughbred at winning pitch for a long period of time.

Despite this Bob Robby topped all horses in the land in number of winning performances in 1960, and figures to add to his laurels during the meeting just ahead at Waterford Park.

He is among 15 head which trainer H. H. Chopin is planning to assemble.

Reds Win To Hold Lead But Dodgers Nail 2 To Cut Edge

Braves Trip Giants; Bucs Washed Out

By ED WILKS
Associated Press Sports Writer

The Milwaukee Braves, matching their longest winning streak of the season with their third straight victory, beat third place San Francisco 5-3 behind right-hander Lew Burdette Wednesday night while first place Cincinnati rapped St. Louis 9-2.

The Los Angeles Dodgers shaved Cincinnati's lead to one game by sweeping a doubleheader from the Chicago Cubs 4-1 and 4-2. Pittsburgh and Philadelphia were rained out.

In the American League, the New York Yankees beat Kansas City 5-3. The Chicago White Sox walloped third-place Cleveland 15-3, and 11-1. Baltimore beat Minnesota 11-5 and the Los Angeles Angels defeated Boston 5-1.

Burdette (6-5) followed up a 2-1, five-hit victory over Los Angeles in his last start with a five-hit decision over the Giants, who now trail by three games. The big right-hander retired 11 batters in a row after the Giants broke a 2-2 tie with Willie Mays' 14th home run in the sixth inning.

The Reds took a 2-1 lead in the first inning against loser Ernie Broglio (6-8) and romped in as Gus Bell and Frank Robinson each hit a homer and drove in five runs between them.

Reliever Larry Sherry saved both games for the Dodgers. He struck out pinch hitter Ed Bouchee and Jerry Kindall with two on in the ninth inning of the opener, saving the victory for Stan Williams (6-6). Then he blanked the Cubs on one hit over 3 1-3 innings in relief of southpaw Johnny Podres (7-1) in the second game.

Wills, Larker Fight Disclosed In Report

LOS ANGELES (AP) — A fist-fight between Dodger shortstop Maury Wills and his teammate, first baseman Norm Larker, put Wills out of action for two days last week, the Los Angeles Examiner reported today in a copyrighted story.

News of the fight leaked out despite apparent efforts of the Dodger front office to conceal the incident, which occurred June 15 before the first game against the Cubs in Los Angeles.

Jones Is First 2-Time Pre-Senior Golf King

MANSFIELD, Ohio (AP)—Tom Jones Jr. of Youngstown has become the first two-time champion of the Ohio Pre-Seniors Golf Tournament.

The 43-year-old redhead came from one stroke off the pace to win the sixth annual tournament for players between 40 and 55 years of age Wednesday and retain the title he won a year ago.

Jones, who operates a drycleaning establishment in New Castle, Pa., carded a 75 Wednesday to add to his opening round one-over-par 73 over Westbrook Country Club's soggy 6,414-yard course for a 36-hole total of 148.

That total put him two strokes ahead of Mansfield's Vic Salter who was one of the three tied for the lead after the first round Tuesday.

Salter, 53, president of a manufacturing company; Ray Heischman, 46, Worthington real estate operator, and Harry Wilson, 43, salesman from Wickliffe, all were tied with 72s after the first round. Wednesday, however, all faultered and Jones won it all.

Following Jones and Salter were Wilson who finished with a 151 and five men tied for fourth with 152s. They were Heischman, Charles Schmitz of Columbus, Steve Pipoly of Poland, Lyman C. Norton of Mansfield and Edmund Pekarik of Columbus.

The low gross and net scorers in each division won trophies. In Class A for players ages 40 through 44, the low gross honors went to Wilson and the low net to Pekarik. Heischman and Norton tied for low gross in the 45-49 age bracket, with E. G. Schleinitz of Dayton taking the net honors. Salter was the low gross scorer in the 50-55 bracket and L. E. Raake of Zanesville had the low net.

Ameche, Colts' Star Fullback, To Retire

BALTIMORE (AP) — "I just didn't think I had it any more," said Alan (The Horse) Ameche, and with that the star fullback of the Baltimore Colts announced his retirement Wednesday.

A Heisman Trophy winner while at the University of Wisconsin, Ameche said business pressures and an injury he suffered late last season contributed to his decision to quit after five years with the Colts in the National Football League.

Ameche holds a major interest in a drive-in restaurant chain.

The achilles tendon in his right leg was torn during a game last Dec. 4, and the slow-healing injury cast a doubt on his football future.

Hookstown rallied in its half of the ninth with three singles and Anderson's circuit clout to save the victory for pitcher Verzella. Littel was the loser in the game played on the Hookstown diamond.

He Buys Fire Truck In Case Of Emergency

HOPATCONG, N. J. (AP) — Richard Saffin, a veteran financier, has spent $500 on an item which he hopes he never has to use.

Saffin spent the money on a 1936 fire truck which Denville Township was replacing. It will be used to keep brush fires on Saffin's 1,200-acre estate under control until firemen arrive.

Saffin, senior partner in the New York investment firm of Boland, Saffin, Gordon & Sautter, says he is "deathly afraid" of brush fire. He said five years ago a brush fire flared out of control and burned for a week.

Saffin says that despite the speed of firemen, "once a fire gets started, it's hard to put out."

Child-Wife Bride And 2 Children Perish In Fire

ASHLAND, Ala. (AP)—Authorities are seeking the cause of a fire in which the child-bride wife and two children of a once powerful Ku Klux Klan leader, the Rev. Alvin Horn, perished.

The bodies were removed from the ruins of a small, frame house in a rural area near this northeast Alabama town.

Horn, recently named in a federal court injunction barring violence against "Freedom Riders," resigned as a leader of the Alabama Ku Klux Klan faction in 1957 shortly after he married 15-year-old Barbara Richardson.

Mrs. Horn, now 19, and two children, Alvin J. Horn Jr., 3, and Pamela, 2, were in the house Wednesday when it burned.

Sheriff Paul Levie said he had not talked with Horn, 49, who was at his job in Wilsonville, 40 miles away, when the fire was discovered.

Cohen Reveals Gambling Setup During His Trial

LOS ANGELES (AP)— Mickey Cohen, testifying at his federal income tax evasion trial, said Wednesday that he ran a big-time gambling operation here in the 1940s.

Cohen said he even had an undercover casino in the Ambassador Hotel in Los Angeles for a time, earning $15,000 to $20,000 a month from it.

"I remember one month I made as high as $70,000," he told the jury.

The Ambassador, one of this city's most dignified hotels, was owned by a corporation of stockholders until 1947. It then was acquired by Schine Enterprises, the present operators. A Schine spokesman denied any knowledge of gambling activities in the hotel's past.

Frick Hints He'll Resign Baseball Post

NEW YORK (AP) — There is talk in baseball circles today that Commissioner Ford Frick may resign his $65,000 job at the head of baseball before the end of his second term Sept. 20, 1965.

Says Frick: "I have no immediate plans to retire but I do not propose to work until I drop in my tracks. If I remain to the end of my contract it would carry me beyond the age that I think a man should work. But as of now I've got lots of pep."

Most frequently discussed as possibly successors are former vice president Richard M. Nixon; Judge Robert C. Cannon of Milwaukee; Joe Cronin, president of the American League; and Warren Giles, president of the National League.

Baseball men think Frick will not want to step aside until baseball's current headaches are further along to solution. These are:

1. Expansion of the majors. The American League went to 10 teams this year, the National goes to 10 next year.

2. The wild bidding for untried young players through the bonus system, with offers to teen-agers of $100,000 and more.

3. Legislation to protect the reserve clause and remove the threat of antitrust action.

Frick was born Dec. 19, 1894, and thus would be close to 71 if he remained to the end of his second seven-year term. He is reputed to be eligible any time for a pension of $30,000 or more.

Cox-Merchants Nip Negley, 6-5

East Liverpool's Cox-Merchants got off to a winning start to open the second half of action in the County-City baseball league Wednesday, edging Negley, 6-5, with a final inning rally.

Salem and Columbiana also scored victories in a night of close games in the league.

With veteran Vic Reed clouting a triple to tie the game at 5-5 in the seventh, Cox-Merchants plated the winning tally on a wild pitch by Negley's Gray during an attempted squeeze play.

Reed's important blow sent home Reider with the tying run and another followed on the attempted squeeze strategy of Manager John Andrason.

Burkes hurled the victory for Cox-Merchants, yielding six hits in going the distance. He struck out six and walked only three.

Gray, in being charged with the defeat, also pitched a six - hitter and fanned three, walking the same number.

Murawski and Cronin of Cox-Merchants also banged extra-base hits, each collecting a double. But Reider led all batters by clouting three singled for the city entry.

R. Noel showed two singled for Negley.

In other games, Columbiana whipped Leetonia Dan Dee, 4-1, with the winners collecting eight hits. Dick Early was the winning pitcher. Salem shutout East Palestine, 2-0.

Cox - Merchants will meet Leetonia Dan Dee Friday at Patterson Field to complete the city entry's first - half schedule.

Reds Win To Hold Lead But Dodgers Nail 2 To Cut Edge

Braves Trip Giants; Bucs Washed Out

By ED WILKS
Associated Press Sports Writer

The Milwaukee Braves, matching their longest winning streak of the season with their third straight victory, beat third place San Francisco 5-3 behind right-hander Lew Burdette Wednesday night while first place Cincinnati rapped St. Louis 9-2.

The Los Angeles Dodgers shaved Cincinnati's lead to one game by sweeping a doubleheader from the Chicago Cubs 4-1 and 4-2. Pittsburgh and Philadelphia were rained out.

In the American League, the New York Yankees beat Kansas City 5-3. The Chicago White Sox walloped third-place Cleveland 15-3, and 11-1. Baltimore beat Minnesota 11-5 and the Los Angeles Angels defeated Boston 5-1.

Burdette (6-5) followed up a 2-1, five-hit victory over Los Angeles in his last start with a five-hit decision over the Giants, who now trail by three games. The big right-hander retired 11 batters in a row after the Giants broke a 2-2 tie with Willie Mays' 14th home run in the sixth inning.

The Reds took a 2-1 lead in the first inning against loser Ernie Broglio (6-8) and romped in as Gus Bell and Frank Robinson each hit a homer and drove in five runs between them.

Reliever Larry Sherry saved both games for the Dodgers. He struck out pinch hitter Ed Bouchee and Jerry Kindall with two on in the ninth inning of the opener, saving the victory for Stan Williams (6-6). Then he blanked the Cubs on one hit over 3 1-3 innings in relief of southpaw Johnny Podres (7-1) in the second game.

Wills, Larker Fight Disclosed In Report

LOS ANGELES (AP) — A fist-fight between Dodger shortstop Maury Wills and his teammate, first baseman Norm Larker, put Wills out of action for two days last week, the Los Angeles Examiner reported today in a copyrighted story.

Jones Is First 2-Time Pre-Senior Golf King

MANSFIELD, Ohio (AP)—Tom Jones Jr. of Youngstown has become the first two-time champion of the Ohio Pre-Seniors Golf Tournament.

The 43-year-old redhead came from one stroke off the pace to win the sixth annual tournament for players between 40 and 55 years of age Wednesday and retain the title he won a year ago.

Jones, who operates a drycleaning establishment in New Castle, Pa., carded a 75 Wednesday to add to his opening round one-over-par 73 over Westbrook Country Club's soggy 6,414-yard course for a 36-hole total of 148.

That total put him two strokes ahead of Mansfield's Vic Salter who was one of the three tied for the lead after the first round Tuesday.

Salter, 53, president of a manufacturing company; Ray Heischman, 46, Worthington real estate operator, and Harry Wilson, 43, salesman from Wickliffe, all were tied with 72s after the first round. Wednesday, however, all faultered and Jones won it all.

Following Jones and Salter were Wilson who finished with a 151 and five men tied for fourth with 152s. They were Heischman, Charles Schmitz of Columbus, Steve Pipoly of Poland, Lyman C. Norton of Mansfield and Edmund Pekarik of Columbus.

The low gross and net scorers in each division won trophies. In Class A for players ages 40 through 44, the low gross honors went to Wilson and the low net to Pekarik. Heischman and Norton tied for low gross in the 45-49 age bracket, with E. G. Schleinitz of Dayton taking the net honors. Salter was the low gross scorer in the 50-55 bracket and L. E. Raake of Zanesville had the low net.

Township Seeks Midland Water

The Midland Municipal Authority Wednesday evening set July 12 for a special meeting with the Ohio Township Municipal Authority to discuss the township's request for water from Midland.

A letter from the township authority said a bonding company has agreed to sell bonds for the township and a survey is progressing.

"We know there will be an outlay of funds on your part to extend the line to the township area through your right-of-way and we are willing to pay an annual fee to the Midland Municipal Authority to help defray this cost," the letter said.

—:—

MIDLAND authority members decided a meeting with the township authority is necessary to learn if water is for emergency use or residential, to set a rate, and to go over other details.

The Midland authority agreed in January last year that water is available to the township but said at that time it could not give financial support since it faced several of its own problems.

The township has requested permission to tap the Midland line to be used for emergency only. The township previously asked for water for the Midland View area in which there were 74 applicants.

A 3,600-foot water line from the Midland Heights reservoir to the borough line would cost an estimated $20,000 and does not include the possibility of Midland needing another reservoir and additional pumping facilities to handle increases, discussion brought out.

—:—

THE LETTER said the township intends to extend water lines through the township from the Meadowbrook Estates water plant and by tying in with a line at Midland Heights both areas would be assured of adequate water at all times.

Midland members said they believe the township should have water, especially for protection, and that a special meeting would be the best way to work out arrangements.

Larry Cuccaro moved to set the special meeting.

Also on a motion by Cuccaro, the authority decided to hire Michael Baker, consulting engineers, to make a study of needed repairs to the water department building and prepare specifications for bids.

Donald Craik, manager, reported that repairs are needed to the roof, cornices and sills, corners of the building, steps and sidewalk and basins.

—:—

THE AUTHORITY decided to write Pitometer Associates of Pittsburgh for a proposal to make a survey of large meters and water lines at railroad crossings for leaks and accuracy of meters. The last survey was made about four years ago.

A request of Craik for tools and equipment in the amount of $900 was referred to the purchasing committee for study.

On a motion by Rudolph Presutti, the authority agreed to give the borough annual permission to use water to wash down streets prior to the July 4th celebration at no charge.

Committees appointed by Dr. Zanvel Sigal, chairman, include:

—:—

FINANCE AND law — Leslie Roach, chairman, Presutti and Cuccaro; labor — Presutti, chairman, Sullivan Tonti and Cuccaro; building — Cuccaro, chairman, Presutti and Tonti; personnel — Tonti, chairman, Roach and Presutti, and purchasing — Presutti, chairman, Roach and Tonti.

Police Probe 3 City Thefts

East Liverpool police today are investigating three thievery cases in which the loot totaled $279.

Theft of two record players valued at $239 was reported to the department Wednesday at 3:25 p. m. by Jack Young, general manager of East Liverpool Central Service, Inc., of W. 7th St.

Young said a portable stereophonic record player worth $169.95 was stolen sometime between 3 p. m. Monday and Tuesday noon from the Central Service appliance store at W. 7th and Jackson Sts. The phonograph was taken from a display in the showroom, he said.

Young also told police that a phonograph valued at $70, which had been installed in a 1960 model auto, was stolen sometime in the preceding week while the auto was in the Central Service storehouse in the old Faulk Building on Dresden Ave. Both thefts are covered by insurance, he said.

Meanwhile, John Monasky, 1903 St. Clair Ave., told police Wednesday at 1:30 p. m. an electric drill and bits worth $40 were stolen from his auto between 4:30 p. m. Tuesday and 9:30 a. m. yesterday. Monasky said he placed the drill in his car while it was parked on a lot in Green Ln. at 4:30 p. m. Tuesday.

Humphrey Says U.S. Takes New Look At Aid Plan

WASHINGTON (AP)—Sen. Hubert H. Humphrey, D-Minn., said today the administration is taking a new look at its plans for economic and military assistance abroad.

Humphrey, the Senate's assistant Democratic leader, said revised programs have improved chances for congressional approval of a substantial part of Kennedy's $4.8 foreign aid program.

Meanwhile, Sen. J. William Fulbright, D-Ark., delayed Senate Foreign Relations Committee voting on the controversial measure until it hears from U.N. Ambassador Adlai E. Stevenson and Secretary of State Dean Rusk. Fulbright is chairman of the committee.

A tentative date has been set for Stevenson to report on his Latin-American trip next Thursday, with Rusk to appear the following day with revised programs designed to meet congressional criticism.

The Grahams Know

You Buy Better When You Buy Steel

"We didn't need convincing but when we shopped for a combination screen and storm door we proved to ourselves again that you buy better when you buy steel," say Mr. and Mrs. Harry Graham.

"We wanted two things. First, the door had to be attractive. We're pretty proud of our house and a little particular when it comes to picking out accessories for it. Second, we wanted a door that would give good, long service.

"That's why we bought a stainless steel door. In fact, we bought two, one for the front door and one for the back.

"We feel we bought the best, too," says Mr. Graham, "Because the stainless was made right at Midland works by people we know."

Mr. Graham and his wife, Anne, live at R. D. No. 1 in Industry. A Crucible employee since 1934, Mr. Graham is a sheet metal worker in the Structural Shop at Midland works.

Suit Asks $150,000

LISBON — Ted Pekarchick, 116 Pritchard Ave., filed suit for $150,000 in Common Pleas Court Wednesday, claiming permanent injuries in a traffic crash involving three cars April 21, 1960. Defendants are Margaret Hall and Linton Hacker, both of Salem. He accused both of being negligent in the crash on Route 45 near Salem.

Australia is the world's driest continent, with an average annual rainfall of about 16.5 inches.

New Precinct Lines Drawn

The County Election Board is continuing work on drafting tentative boundary lines for establishment of 13 new precincts, Frank R. O'Hanlon, clerk, said today.

The decision to create the new polling areas was made early this year by the Election Board as a result of topheavy votes cast in some areas in the November 1960 general election. If all 13 are established, the number of Columbiana County precincts will rise from 152 to 165.

The board expects to create two each in East Liverpool, Salem and Coluumbiana village and one each in Butler, Hanover, Liverpool, Perry, St. Clair and Yellow Creek Townships. In addition, it expects to realign the boundaries in a precinct in Lisbon and another in Unity Township, but the action will not result in creation of new polling areas.

New polling areas are scheduled for establishment in precincts where more than 400 votes were cast last November. State law provides that a precinct will be divided or realigned in any case where the total votes exceeds 400. Election Boards regard the "ideal" precinct as one that casts not less than 250 nor more than 400 votes, O'Hanlon said.

The board is required to give at least 10 days' notice of its intentions by posting public notices in the affected precincts. Then it is required to hold a public hearing to determine if the new precincts will be established. If not more than 12 "remonstrances" — protests — are filed, the establishment of the precincts is automatic.

The hearing on establishment of the 13 precincts is expected to be held Aug. 14. At the same time, the board expects to award contracts for ballots for the November general election.

Deputies Nab 7 In Tavern Raid

A raiding party of Hancock County sheriff's deputies arrested a Chester tavern operator and six men from Chester and Wellsville today in connection with a card game.

A charge of permitting gambling was filed against Carl Amedeo, proprietor of Pat's Tavern, 500 Carolina Ave., at 5 a. m. by deputies from the office of Sheriff Joseph H. Manypenny in New Cumberland.

Four Chester men were charged with gambling, and two from Wellsville with loitering, and all were fined $10 and costs each at hearings before Squire W. Eugene Allison.

Amedeo pleaded guilty to a charge of permitting gambling and was fined $50 and costs by Squire Allison.

Fined for gambling were Stanley Walker, Kenneth Parker, John Hayes and Francis Zagola, all of Chester, while W. H. Nixon and Robert Newlin, both of Wellsville, were fined for loitering, the sheriff's office reported.

Sheriff's deputies said the men charged with gambling were playing poker.

Excavating Started On Wellsville Store

Some excavating has been started for the new supermarket to be constructed in Wellsville by Mason's Foodliner chain stores of Dover.

The market will be constructed on a section of the old mill property at the upper end of Wellsville, just off the super-road.

The excavating was slowed by old machinery foundations which had to be removed.

Daniel Mason of Dover, co-owner, will supervise construction. He is a former construction engineer.

The mishap occurred at 11:50, three-tenths of a mile north of the Route 213 intersection with Route 7, the patrol said. Backus' car was demolished.

Backus received a three - inch laceration and multiple abrasions and a smaller laceration of the left shoulder, contusions of the left face, nose and arm, contusions of the left lower leg, and a possible fractured left elbow.

Suit Asks $150,000

LISBON — Ted Pekarchick, 116 Pritchard Ave., filed suit for $150,000 in Common Pleas Court Wednesday, claiming permanent injuries in a traffic crash involving three cars April 21, 1960. New Precinct Lines Drawn

The County Election Board is continuing work on drafting tentative boundary lines for establishment of 13 new precincts, Frank R. O'Hanlon, clerk, said today.

The decision to create the new polling areas was made early this year by the Election Board as a result of topheavy votes cast in some areas in the November 1960 general election. If all 13 are established, the number of Columbiana County precincts will rise from 152 to 165.

The board expects to create two each in East Liverpool, Salem and Coluumbiana village and one each in Butler, Hanover, Liverpool, Perry, St. Clair and Yellow Creek Townships. In addition, it expects to realign the boundaries in a precinct in Lisbon and another in Unity Township, but the action will not result in creation of new polling areas.

New polling areas are scheduled for establishment in precincts where more than 400 votes were cast last November. State law provides that a precinct will be divided or realigned in any case where the total votes exceeds 400. Election Boards regard the "ideal" precinct as one that casts not less than 250 nor more than 400 votes, O'Hanlon said.

The board is required to give at least 10 days' notice of its intentions by posting public notices in the affected precincts. Then it is required to hold a public hearing to determine if the new precincts will be established. If not more than 12 "remonstrances" — protests — are filed, the establishment of the precincts is automatic.

The hearing on establishment of the 13 precincts is expected to be held Aug. 14. At the same time, the board expects to award contracts for ballots for the November general election.

Deputies Nab 7 In Tavern Raid

A raiding party of Hancock County sheriff's deputies arrested a Chester tavern operator and six men from Chester and Wellsville today in connection with a card game.

A charge of permitting gambling was filed against Carl Amedeo, proprietor of Pat's Tavern, 500 Carolina Ave., at 5 a. m. by deputies from the office of Sheriff Joseph H. Manypenny in New Cumberland.

Four Chester men were charged with gambling, and two from Wellsville with loitering, and all were fined $10 and costs each at hearings before Squire W. Eugene Allison.

Amedeo pleaded guilty to a charge of permitting gambling and was fined $50 and costs by Squire Allison.

Fined for gambling were Stanley Walker, Kenneth Parker, John Hayes and Francis Zagola, all of Chester, while W. H. Nixon and Robert Newlin, both of Wellsville, were fined for loitering, the sheriff's office reported.

Sheriff's deputies said the men charged with gambling were playing poker.

Excavating Started On Wellsville Store

Some excavating has been started for the new supermarket to be constructed in Wellsville by Mason's Foodliner chain stores of Dover.

The market will be constructed on a section of the old mill property at the upper end of Wellsville, just off the super-road.

The excavating was slowed by old machinery foundations which had to be removed.

Daniel Mason of Dover, co-owner, will supervise construction. He is a former construction engineer.

Tin Plate Mill Erection Due

The first facilities especially designed and constructed for production of light weight tin plate will be installed by National Steel Corp. at its Weirton plant.

Thomas E. Millsop, chairman of National Steel, said Wednesday a two-stand four-high cold mill will be equipped with a total of approximately 7,000 horsepower to permit an operating speed of 3,000 feet a minute.

Contracts have been let to Mesta Machine Co. for the cold mill and to Wean Engineering Company, of Warren for a cleaning, chemical treating and oiling line.

Initial operation is scheduled for the second half of 1962.

Light weight tin plate now is being produced on facilities that were built originally for other purposes and were modified to meet the production requirements of the new material. High quality standards have been maintained but slow operating speeds resulted, Millsop said.

Addition of the new facilities will increase Weirton Steel's capacity for production of light weight tin plate by approximately 300 per cent.

The light weight material is first produced as conventional tin plate coils. The coils are then cold-rolled to reduce both the steel strip and its coating of tin to approximately one-half of the original thickness and twice the original length.

Two new buildings at Weirton Steel will have a combined floor area of approximately 45,000 square feet and will be constructed as an extension of the tin mill.

Federal Order On Milk Sale To Start On July 1

WASHINGTON (AP)—The Agriculture Department announced today that a federal order regulating the sale of milk in the greater Youngstown - Warren, Ohio, marketing area will go into effect July 1.

Under the order, the department will set minimum prices which handlers will be required to pay dairymen who supply the market. The department will not, however, set retail prices.

The order is designed to help stabilize prices and supplies of fluid milk. Similar orders regulate the marketing of milk in about 80 other areas.

In a recent referendum, 836 producers supplying the market approved the order. They represented 90.3 per cent of the producers voting.

The order program will be administered by William W. Hurwitz, also administrator of a similar order covering a Northeastern Ohio marketing area centering around Cleveland.

AIR CONDITIONED COMFORT

Out Of The Air

By MARIE TORRE

Repetition May Generate Heat

Repetition, like friction, is likely to generate heat instead of progress. But the reruns on television these sultry days don't pain us nearly so much now that relief is at last in sight!

Marie Torre

Marking the first time a network has questioned the old industry bleat about the economic necessity of summer's twice-told tales, the American Broadcasting Co. has initiated intramural discussion on the possibility of showing first-run programming through the summer, be they continuations of wintertime programs or freshly minted series.

Such a move, as ABC Vice President Thomas Moore explains it, could not be a hasty development. The earliest possible time the plan could be incepted on a full-scale basis would be summer of 1963, for current contract commitments with sponsors would first have to run out.

-:-

BUT THE IDEA will be put to an experiment next summer on one night of the week, possibly Thursday nights. A major sponsor already has been approached on the project and is reportedly enthusiastic.

"We could be wrong about it," remarked Moore, "but we think the elimination of reruns in summer is in the realm of possibility."

The ABC plan represents an important step: No. 1, because it is the first known attempt to change the much-criticized pattern of summer viewing, and No. 2 the plan is likely to be adopted by the industry's sedulous apes. Particularly if ABC's test next summer draws crowds, and there's every reason to believe it will.

In summer, as every TV survey on the subject points out, viewing is motivated not by what is good but by what is new.

"WAGON TRAIN" reached California for the fourth time in its TV career Wednesday, after which the series will swing into repeats. When "Train" begins the trek West next fall, it's doubtful the restless Robert Horton will be the "scouts." He wants out. . .

A budget squeeze has caused the sponsor to relinquish Leonard Bernstein's excellent "Young People's Concerts" in favor of a series of international golf matches. . . .

That imitation is an irresistible urge in TV is illustrated anew in a fall ABC entry called "Follow the Sun." The series combines elements of "Route 66" (two free-wheeling young men in search of adventure rather than work), "Adventures in Paradise" (Pacific Island setting) and "Hong Kong" (young men are writers).

POLITICAL columnist Walter Lippmann illuminated "CBS Reports" for the second time in a year last week with a lesson in living history that was conducted in the best tradition of educational TV.

Wisely, nothing was permitted to distract from the wisdom of Lippmann, neither Howard K. Smith, who conducted the interview in a straightforward, informal manner, nor the setting, which was the library in Mr. Lippmann's home.

Whether viewers agreed or disagreed with his evaluations of President Kennedy's administration, U.S. domestic policy, NATO, De Gaulle, Laos, Berlin and Dean Rusk, Mr. Lippmann enriched the public understanding of crucial issues.

-:-

"I CONFESS I was stung by your comments on my interview with Nikita Khrushchev," writes ABC's only female correspondent, Lisa Howard, "for I agree with you completely that women interviewers should be capable of straight, informative reporting."

Miss Howard, you may remember, was roundly criticized here for wasting what could have been a perfectly good interview with Khrushchev during President Kennedy's European jaunt.

The interview was all puff and no pith, we said, to which Miss Howard later said:

"It was impossible to obtain serious information on a Viennese sidewalk with dozens of guards and hundreds of spectators around when Khrushchev was due for a meeting with Kennedy."

We recently listened, however, to a taped interview Miss Howard had with the Soviet Premier last year when she was working for Mutual. It behooves us to admit that Miss Howard is capable of respectable reporting.

'Safe Driver' Insurance To Be Reduced

Many Ohio motorists convicted of the less serious moving traffic violations will escape payment of higher premiums for their auto insurance as a result of changes in the "safe driver insurance plan" effective July 1, according to Thomas Eason of the Eason Insurance Agency.

The National Bureau of Casualty Underwriters and the National Automobile Underwriters Association, introduced the plan in Ohio in 1959 on behalf of their more than 200 affiliated companies.

The safe driver plan grants reduced premiums to motorists with good driving records for the last three years and charges higher premiums to those with records of accidents and traffic violation convictions.

The local area reflects a reduction of 6.2 per cent for the price of liability and property damage, Eason said.

Under the plan, the premium a motorist pays depends upon whether he has points assigned against him for accidents or convictions and the number of points.

The changes in the plan will result in eliminating or reducing the number of points assigned against motorists for convictions of many types of moving traffic violations, thus relieving many drivers from surchargse on their premiums. Motorists who accumulate points under the revised plan will pay higher surcharges than in the past.

At the same time the plan revisions become effective, basic premiums for automobile insurance will be readjusted.

The National Automobile Underwriters Association announced rate readjustments resulting in an overall statewide premium revenue reduction of 2 per cent for automobile physical damage insurance, which reimburses the insured for damage to his own car.

The National Bureau of Casualty Underwriters announced territorial readjustments in basic premiums for automobile liability insurance. In nine territories rates will decline and in 13 others will increase to some extent.

For bodily injury liability coverage of $10,000 per person and $20,000 per accident and for property damage liability coverage of $5,000 per accident, the premium readjustments will result in an average statewide increase of 1.8 per cent for private passenger cars.

Most risks insured under the economy-type special automobile policy will receive greater savings than are presently available.

The NBCU also announced an average statewide reduction of 10 per cent in premiums for medical payments coverage. Automobiles qualifying for the farm rate will continue to receive the 30 per cent discount provided for such vehicles.

The changes in the safe driver insurance plan are designed to simplify the plan for easier administration. They will have the effect of eliminating the assignment of points for many minor moving traffic violation convictions for which points now are charged and promote the uniform administration of the plan throughout the state with respect to serious convictions.

The principal changes involve the dropping of penalty points for running a red light, failure to observe a stop sign, illegal turn, illegal passing and certain other offenses.

Under the revised plan, points will be assigned for convictions only in accordance with the following procedure:

1.—For certain major moving traffic violation convictions, the points assigned will be reduced from five to three. These major violations are: driving while intoxicated or under the influence of drugs; failure to stop and report when involved in an accident; homicide or assault arising out of the operation of a motor vehicle; or driving during a period while license is supended or revoked.

2.—Two points will be assigned for the accumulation of points under the Ohio state point system administered by the Bureau of Motor Vehicles or a series of convictions requiring the filing of evidence of financial responsibility under any financial responsibility law.

3.—One point will be assigned for conviction of any other moving traffic violation which results in the suspension of revocation of an operator's license or the filing of evidence of financial responsibility under any financial responsibility law.

4.—"Reckless driving", which at present calls for assignment of three points, will be omitted from the plan because there are no uniform standards of defining the offense.

Other important changes are:

1.—Only one point, instead of two, will be assigned for each automobile accident resulting in damage to any property in excess of $50 or any bodily injury or death.

2.—One point will be assigned for two or more accidents resulting in property damage under $50. At present no points are charged for these accidents.

3.—A driver who has been licensed less than three years and who has not been assigned any points will pay the basic premium. In view of the hazards of driving on today's congested highways, a newly-licensed driver is more likely to be involved in an accident than one who has had several years of driving experience, the rating organizations explained.

4.—Because of the elimination of penalty points for many lesser violation convictions and the reduction in the number of penalty points assigned for accidents and serious convictions, the number of point categories and the premium surcharges are being revised. The new point categories and premiums are:

No points, 15 per cent discount off basic premium; one point, basic premium plus 5 per cent; two points, basic premium plus 50 per cent; three points, basic premium plus 100 per cent, and four points, basic premium plus 150 per cent.

The new policy in the Columbiana County area, including the portion of Washingtonville in Mahoning County, will cost $102 for the one-year special premium for safe drivers in Class 1A. Other charges are Class 1B, $102; Class 1C, $122; Class 2A, $158; Class 2C, $276 and Class 3, $136.

For comparison, the present one-year special premium in the respective classes are $112, $112, $134, $174, $296 and $148. The present one-year family policy for combination of coverages is $127, $127, $150.10, $193.50, $295.50 and $165.50. The new one-year family policy for the safe driver includes $120, $120, $142, $183, $281 and $156.

The NBCU also announced readjustments in basic premiums for liability insurance resulting in an average statewide increase of 1.7 per cent for commercial cars and 7.1 per cent for garages buying the broad coverage. These percentage changes apply to limits of $10,000 and $20,000 for bodily injury and $5,000 for property damage.

Anti-Burglar Hints Mailed

Police department tips to householders on prevention of vacation season burglaries will be enclosed with each of the 7,200 quarterly bills the city water department will mail to its customers in the next few days.

As an aid to the local participation in statewide observance of Burglary Prevention Week, Chief Americo J. Radeschi arranged for the enclosures with Water Department Supt. Donald Duke.

The sheet is headed "How to discourage burglars and prowlers." It lists 10 points for householders to check before leaving home for an evening, a weekend or a vacation trip.

It asks householders to report to police any suspicious persons they observe around the home of an absent neighbor.

The first of the water bills were mailed Wednesday. Normally, postcard notices are used, but envelopes are being utilized for this quarter because the department is enclosing a copy of its recently-adopted new rate schedule.

The police department publication shows a darkened home, ripe for plucking by burglars, and warns:

"Housebreakers can and will move in if they're certain you've left. Burglars spend their daylight hours canvassing neighborhoods for uncut lawns and jammed mailboxes. They spend their spare evening hours looking for darkened houses — or lights that are left on too long."

Oak Tree That Inspired Kilmer Poem Is Dying

NEW BRUNSWICK, N.J. (AP) —The gnarled old oak that inspired Joyce Kilmer to write his poem "Trees" is dying.

Kilmer Oak, nearly 300 years old, still stands proudly on the campus of Rutgers University, but age is taking its toll. A dozen branches failed to bloom this spring and a large gash developed in its trunk.

"It's an out-and-out case of senility," says Dr. Edward B. Wilkins, director of Rutger's campus planning. But he said the tree will not be chopped down. And the Student Forestry Club has planted one of its acorns nearby.

Kilmer was killed in action in France July 30, 1918.

The poet was born here in 1886 and attended Rutgers and Columbia University.

Mary Pickford Wins In Suit Against Her

LOS ANGELES (AP)—Former actress Mary Pickford is the victor in a $25,000 suit filed against her by Lawrence A. Nessamar, a real estate broker.

Nessamar claimed the money was due him as a commission for negotiating the purchase of the Mayflower Hotel here by Miss Pickford and two other investors for $1,885,000.

He complained that the ex-actress refused to pay the commission after repudiating the purchase in early 1955.

But Judge Charles R. Thompson held the transaction actually did not involve direct sale of the land and building but was a stock transfer. He concluded that since Nessamar was not a licensed stock broker, he could not collect a commission.

First Private Gift In Food Plan Donated

PLEASANTON, Calif. (AP)—A northern California rancher is donating the first private gift to the U.S. Food for Peace program —50 tons of wheat a year for the next four years for hungry persons overseas.

Coleman Foley, an Irish immigrant who owns cattle and farm land in California and Nevada, was to present the first 50-ton gift today at his ranch near Pleasanton, about 35 miles southeast of San Francisco.

His gift is destined for Greece.

Out Of The Air

Repetition May Generate Heat

Repetition, like friction, is likely to generate heat instead of progress. But the reruns on television these sultry days don't pain us nearly so much now that relief is at last in sight!

Marie Torre

Marking the first time a network has questioned the old industry bleat about the economic necessity of summer's twice-told tales, the American Broadcasting Co. has initiated intramural discussion on the possibility of showing first-run programming through the summer, be they continuations of winter-time programs or freshly minted series.

Such a move, as ABC Vice President Thomas Moore explains it, could not be a hasty development. The earliest possible time the plan could be incepted on a full-scale basis would be summer of 1963, for current contract commitments with sponsors would first have to run out.

-:-

BUT THE IDEA will be put to an experiment next summer on one night of the week, possibly Thursday nights. A major sponsor already has been approached on the project and is reportedly enthusiastic.

"We could be wrong about it," remarked Moore, "but we think the elimination of reruns in summer is in the realm of possibility."

The ABC plan represents an important step: No. 1, because it is the first known attempt to change the much-criticized pattern of summer viewing, and No. 2 the plan is likely to be adopted by the industry's sedulous apes. Particularly if ABC's test next summer draws crowds, and there's every reason to believe it will.

In summer, as every TV survey on the subject points out, viewing is motivated not by what is good but by what is new.

-:-

"WAGON TRAIN" reached California for the fourth time in its TV career Wednesday, after which the series will swing into repeats. When "Train" begins the trek West next fall, it's doubtful the restless Robert Horton will be the "scouts." He wants out. . .

A budget squeeze has caused the sponsor to relinquish Leonard Bernstein's excellent "Young People's Concerts" in favor of a series of international golf matches. . . .

That imitation is an irresistible urge in TV is illustrated anew in a fall ABC entry called "Follow the Sun." The series combines elements of "Route 66" (two free-wheeling young men in search of adventure rather than work), "Adventures in Paradise" (Pacific Island setting) and "Hong Kong" (young men are writers).

-:-

POLITICAL columnist Walter Lippmann illuminated "CBS Reports" for the second time in a year last week with a lesson in living history that was conducted in the best tradition of educational TV.

Wisely, nothing was permitted to distract from the wisdom of Lippmann, neither Howard K. Smith, who conducted the interview in a straightforward, informal manner, nor the setting, which was the library in Mr. Lippmann's home.

Whether viewers agreed or disagreed with his evaluations of President Kennedy's administration, U.S. domestic policy, NATO, De Gaulle, Laos, Berlin and Dean Rusk, Mr. Lippmann enriched the public understanding of crucial issues.

-:-

"I CONFESS I was stung by your comments on my interview with Nikita Khrushchev," writes ABC's only female correspondent, Lisa Howard, "for I agree with you completely that women interviewers should be capable of straight, informative reporting."

Miss Howard, you may remember, was roundly criticized here for wasting what could have been a perfectly good interview with Khrushchev during President Kennedy's European jaunt.

The interview was all puff and no pith, we said, to which Miss Howard later said:

"It was impossible to obtain serious information on a Viennese sidewalk with dozens of guards and hundreds of spectators around when Khrushchev was due for a meeting with Kennedy."

We recently listened, however, to a taped interview Miss Howard had with the Soviet Premier last year when she was working for Mutual. It behooves us to admit that Miss Howard is capable of respectable reporting.

'Safe Driver' Insurance To Be Reduced

Many Ohio motorists convicted of the less serious moving traffic violations will escape payment of higher premiums for their auto insurance as a result of changes in the "safe driver insurance plan" effective July 1, according to Thomas Eason of the Eason Insurance Agency.

The National Bureau of Casualty Underwriters and the National Automobile Underwriters Association, introduced the plan in Ohio in 1959 on behalf of their more than 200 affiliated companies.

The safe driver plan grants reduced premiums to motorists with good driving records for the last three years and charges higher premiums to those with records of accidents and traffic violation convictions.

The local area reflects a reduction of 6.2 per cent for the price of liability and property damage, Eason said.

Under the plan, the premium a motorist pays depends upon whether he has points assigned against him for accidents or convictions and the number of points.

The changes in the plan will result in eliminating or reducing the number of points assigned against motorists for convictions of many types of moving traffic violations, thus relieving many drivers from surchargse on their premiums. Motorists who accumulate points under the revised plan will pay higher surcharges than in the past.

At the same time the plan revisions become effective, basic premiums for automobile insurance will be readjusted.

The National Automobile Underwriters Association announced rate readjustments resulting in an overall statewide premium revenue reduction of 2 per cent for automobile physical damage insurance, which reimburses the insured for damage to his own car.

The National Bureau of Casualty Underwriters announced territorial readjustments in basic premiums for automobile liability insurance. In nine territories rates will decline and in 13 others will increase to some extent.

For bodily injury liability coverage of $10,000 per person and $20,000 per accident and for property damage liability coverage of $5,000 per accident, the premium readjustments will result in an average statewide increase of 1.8 per cent for private passenger cars.

Most risks insured under the economy-type special automobile policy will receive greater savings than are presently available.

The NBCU also announced an average statewide reduction of 10 per cent in premiums for medical payments coverage. Automobiles qualifying for the farm rate will continue to receive the 30 per cent discount provided for such vehicles.

The changes in the safe driver insurance plan are designed to simplify the plan for easier administration. They will have the effect of eliminating the assignment of points for many minor moving traffic violation convictions for which points now are charged and promote the uniform administration of the plan throughout the state with respect to serious convictions.

The principal changes involve the dropping of penalty points for running a red light, failure to observe a stop sign, illegal turn, illegal passing and certain other offenses.

Under the revised plan, points will be assigned for convictions only in accordance with the following procedure:

1.—For certain major moving traffic violation convictions, the points assigned will be reduced from five to three. These major violations are: driving while intoxicated or under the influence of drugs; failure to stop and report when involved in an accident; homicide or assault arising out of the operation of a motor vehicle; or driving during a period while license is supended or revoked.

2.—Two points will be assigned for the accumulation of points under the Ohio state point system administered by the Bureau of Motor Vehicles or a series of convictions requiring the filing of evidence of financial responsibility under any financial responsibility law.

3.—One point will be assigned for conviction of any other moving traffic violation which results in the suspension of revocation of an operator's license or the filing of evidence of financial responsibility under any financial responsibility law.

4.—"Reckless driving", which at present calls for assignment of three points, will be omitted from the plan because there are no uniform standards of defining the offense.

Other important changes are:

1.—Only one point, instead of two, will be assigned for each automobile accident resulting in damage to any property in excess of $50 or any bodily injury or death.

2.—One point will be assigned for two or more accidents resulting in property damage under $50. At present no points are charged for these accidents.

3.—A driver who has been licensed less than three years and who has not been assigned any points will pay the basic premium. In view of the hazards of driving on today's congested highways, a newly-licensed driver is more likely to be involved in an accident than one who has had several years of driving experience, the rating organizations explained.

4.—Because of the elimination of penalty points for many lesser violation convictions and the reduction in the number of penalty points assigned for accidents and serious convictions, the number of point categories and the premium surcharges are being revised. The new point categories and premiums are:

No points, 15 per cent discount off basic premium; one point, basic premium plus 5 per cent; two points, basic premium plus 50 per cent; three points, basic premium plus 100 per cent, and four points, basic premium plus 150 per cent.

The new policy in the Columbiana County area, including the portion of Washingtonville in Mahoning County, will cost $102 for the one-year special premium for safe drivers in Class 1A. Other charges are Class 1B, $102; Class 1C, $122; Class 2A, $158; Class 2C, $276 and Class 3, $136.

For comparison, the present one-year special premium in the respective classes are $112, $112, $134, $174, $296 and $148. The present one-year family policy premium for combination of coverages is $127, $127, $150.10, $193.50, $295.50 and $165.50. The new one-year family policy for the safe driver includes $120, $120, $142, $183, $281 and $156.

The NBCU also announced readjustments in basic premiums for liability insurance resulting in an average statewide increase of 1.7 per cent for commercial cars and 7.1 per cent for garages buying the broad coverage. These percentage changes apply to limits of $10,000 and $20,000 for bodily injury and $5,000 for property damage.

Anti-Burglar Hints Mailed

Police department tips to householders on prevention of vacation season burglaries will be enclosed with each of the 7,200 quarterly bills the city water department will mail to its customers in the next few days.

As an aid to the local participation in statewide observance of Burglary Prevention Week, Chief Americo J. Radeschi arranged for the enclosures with Water Department Supt. Donald Duke.

The sheet is headed "How to discourage burglars and prowlers." It lists 10 points for householders to check before leaving home for an evening, a weekend or a vacation trip.

It asks householders to report to police any suspicious persons they observe around the home of an absent neighbor.

The first of the water bills were mailed Wednesday. Normally, postcard notices are used, but envelopes are being utilized for this quarter because the department is enclosing a copy of its recently-adopted new rate schedule.

The police department publication shows a darkened home, ripe for plucking by burglars, and warns:

"Housebreakers can and will move in if they're certain you've left. Burglars spend their daylight hours canvassing neighborhoods for uncut lawns and jammed mailboxes. They spend their spare evening hours looking for darkened houses — or lights that are left on too long."

Mary Pickford Wins In Suit Against Her

LOS ANGELES (AP)—Former actress Mary Pickford is the victor in a $25,000 suit filed against her by Lawrence A. Nessamar, a real estate broker.

Nessamar claimed the money was due him as a commission for negotiating the purchase of the Mayflower Hotel here by Miss Pickford and two other investors for $1,885,000.

He complained that the ex-actress refused to pay the commission after repudiating the purchase in early 1955.

But Judge Charles R. Thompson held the transaction actually did not involve direct sale of the land and building but was a stock transfer. He concluded that since Nessamar was not a licensed stock broker, he could not collect a commission.

First Private Gift In Food Plan Donated

PLEASANTON, Calif. (AP)—A northern California rancher is donating the first private gift to the U.S. Food for Peace program —50 tons of wheat a year for the next four years for hungry persons overseas.

Coleman Foley, an Irish immigrant who owns cattle and farm land in California and Nevada, was to present the first 50-ton gift today at his ranch near Pleasanton, about 35 miles southeast of San Francisco.

His gift is destined for Greece.

Oak Tree That Inspired Kilmer Poem Is Dying

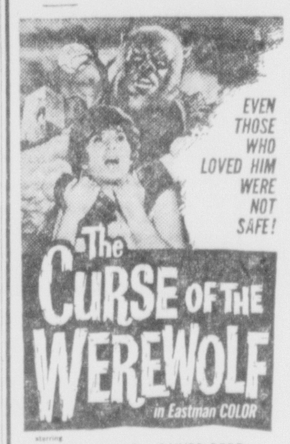

NEW BRUNSWICK, N.J. (AP) —The gnarled old oak that inspired Joyce Kilmer to write his poem "Trees" is dying.

Kilmer Oak, nearly 300 years old, still stands proudly on the campus of Rutgers University, but age is taking its toll. A dozen branches failed to bloom this spring and a large gash developed in its trunk.

"It's an out-and-out case of senility," says Dr. Edward B. Wilkins, director of Rutger's campus planning. But he said the tree will not be chopped down. And the Student Forestry Club has planted one of its acorns nearby.

Kilmer was killed in action in France July 30, 1918.

The poet was born here in 1886 and attended Rutgers and Columbia University.

2,913,000 Owned By Farmers

Ohio's Hog Herd June 1 2% Larger Than In 1960

COLUMBUS, Ohio (AP)—Ohio's hog herd on June 1 was 2 per cent larger than on that date a year ago, the Ohio Crop Reporting Service disclosed.

On that date 2,913,000 head of hogs were owned by Buckeye farmers. The service said hogs and pigs 3-6 months of age totaled 902,000 head or 6 per cent more than a year ago. However, the 1,389,000 pigs under 3 months old were up only 1 per cent. The number of hogs over 6 months old totaled 622,000 which was 1 per cent less than June 1, 1960.

Estimated intended farrowings from June through November was set at 317,000. This is 2 per cent less than for the same period in 1960. Sows to farrow from June through August will total about 166,000 head, up 1 per cent from the same period last year—but the 151,000 sows to farrow from September through November will be 4 per cent fewer than for the same period last year.

WASHINGTON (AP)—Kennedy administration farm programs are applying a brake on production of hogs as well as on feed grains. This probably means there will be no disastrously low hog prices this year or next.

Under an emergency feed grain program initiated this spring, farmers agreed to reduce acreages of corn and sorghum grain about 26 per cent to halt piling up of surplus grains.

An Agriculture Department survey showed Wednesday that an increase in hog production started last fall will slow down rather sharply during the coming fall season. In fact, prospects are production in most states outside the corn belt will dip below year ago levels.

The spring pig crop is up 7 per cent over the 1960 spring crop, but the fall crop may be up only 2 per cent over the 1960 spring crop, but the fall crop may be up only 2 per cent. The areas of prospective decline are mostly deficit feed grain regions, where feed grain prices are the highest.

WASHINGTON (AP)—The Agriculture Department today forecast this season's sour cherry production at 132,680 tons, 14 per cent greater than last year and 2 per cent above average.

Production by major-producing states included: New York 23,000 tons, Pennsylvania 9,500, Ohio 1,500, Michigan 76,000 and Wisconsin 14,000.

3 TV Networks Snubbed Series About Truman

NEW YORK (AP)— Television producer David Susskind says all three major television networks rejected a proposed series of documentary programs featuring former President Harry S. Truman.

Susskind testified Wednesday at a hearing conducted by the Federal Communications Commission inquiring into creative aspects of TV programing.

Concerning a proposed series of 26 one-hour programs by Truman, Susskind testified that the American Broadcasting Co. told him "it was up to its neck in presidents," having planned a series on Franklin D. Roosevelt and Dwight D. Eisenhower.

"NBC said 'We pass,'" Susskind said.

The Columbia Broadcasting system liked the idea but felt it belonged in the public affairs category and that CBS could not "admit outsiders into this sacred domain," Susskind said.

Later, James T. Aubrey Jr., CBS president, said Susskind's testimony was "fraught with errors and distortion," adding: "It is our understanding that at the next phase of the hearings, which will be held next fall, we will be given an opportunity to testify."

7 Persons Killed In Plant Blasts

DETROIT, Mich. (AP)— Seven persons were killed in separate industrial explosions Wednesday in suburban Detroit and Mitchell, Ind.

A blast turned a 70-by-100-foot oxygen plant of the Linde Division of Union Carbide Corp. in Ecorse, Mich., into a "ball of fire." It claimed lives of three men, fathers of a total of eight children.

Four workers were killed and at least a dozen injured when a blast, believed caused by an accumulation of natural gas, demolished an almost-completed building at the Lehigh Portland Cement Co. plant at Mitchell.

One of the Indiana dead was a cleaning woman. The others were construction workers who had been building the 60-by-90-foot building where trucks were to be weighed in and out of the cement plant.

Estate Of $90,000 Due Blood Relative

FREMONT, Ohio (AP)—An estate of $90,000 waits to be claimed by an authentic blood relative of Andrew Fuzesi of Fremont. Probate Court Judge John Bronson ruled Wednesday that Sandusky County schools will share the estate of Fuzesi, a common laborer who made his fortune in cheap real estate. He died without leaving a will.

Judge Bronson said a niece of Fuzesi in Hungary had filed a claim, but the judge ruled that her documents of relationship were not satisfactory.

Walkout Idles Plant

CLEVELAND (AP)—A walkout by 100 skilled tradesmen in the maintenance department Wednesday idled the General Motors Corp. Fisher Body plant here. The strikers, members of the United Auto Workers Local 45, are protesting work being performed by outside tradesmen in a new press room building under construction at the plant. There are 2,600 UAW members employed at the plant.

2,913,000 Owned By Farmers

Ohio's Hog Herd June 1 2% Larger Than In 1960

COLUMBUS, Ohio (AP)—Ohio's hog herd on June 1 was 2 per cent larger than on that date a year ago, the Ohio Crop Reporting Service disclosed.

On that date 2,913,000 head of hogs were owned by Buckeye farmers. The service said hogs and pigs 3-6 months of age totaled 902,000 head or 6 per cent more than a year ago. However, the 1,389,000 pigs under 3 months old were up only 1 per cent. The number of hogs over 6 months old totaled 622,000 which was 1 per cent less than June 1, 1960.

Estimated intended farrowings from June through November was set at 317,000. This is 2 per cent less than for the same period in 1960. Sows to farrow from June through August will total about 166,000 head, up 1 per cent from the same period last year—but the 151,000 sows to farrow from September through November will be 4 per cent fewer than for the same period last year.

WASHINGTON (AP)—Kennedy administration farm programs are applying a brake on production of hogs as well as on feed grains. This probably means there will be no disastrously low hog prices this year or next.

Under an emergency feed grain program initiated this spring, farmers agreed to reduce acreages of corn and sorghum grain about 26 per cent to halt piling up of surplus grains.

An Agriculture Department survey showed Wednesday that an increase in hog production started last fall will slow down rather sharply during the coming fall season. In fact, prospects are production in most states outside the corn belt will dip below year ago levels.

The spring pig crop is up 7 per cent over the 1960 spring crop, but the fall crop may be up only 2 per cent over the 1960 spring crop, but the fall crop may be up only 2 per cent. The areas of prospective decline are mostly deficit feed grain regions, where feed grain prices are the highest.

WASHINGTON (AP)—The Agriculture Department today forecast this season's sour cherry production at 132,680 tons, 14 per cent greater than last year and 2 per cent above average.

Production by major-producing states included: New York 23,000 tons, Pennsylvania 9,500, Ohio 1,500, Michigan 76,000 and Wisconsin 14,000.

3 TV Networks Snubbed Series About Truman

NEW YORK (AP)— Television producer David Susskind says all three major television networks rejected a proposed series of documentary programs featuring former President Harry S. Truman.

Susskind testified Wednesday at a hearing conducted by the Federal Communications Commission inquiring into creative aspects of TV programing.

Concerning a proposed series of 26 one-hour programs by Truman, Susskind testified that the American Broadcasting Co. told him "it was up to its neck in presidents," having planned a series on Franklin D. Roosevelt and Dwight D. Eisenhower.

"NBC said 'We pass,'" Susskind said.

The Columbia Broadcasting system liked the idea but felt it belonged in the public affairs category and that CBS could not "admit outsiders into this sacred domain," Susskind said.

Later, James T. Aubrey Jr., CBS president, said Susskind's testimony was "fraught with errors and distortion," adding: "It is our understanding that at the next phase of the hearings, which will be held next fall, we will be given an opportunity to testify."

7 Persons Killed In Plant Blasts

DETROIT, Mich. (AP)— Seven persons were killed in separate industrial explosions Wednesday in suburban Detroit and Mitchell, Ind.

A blast turned a 70-by-100-foot oxygen plant of the Linde Division of Union Carbide Corp. in Ecorse, Mich., into a "ball of fire." It claimed lives of three men, fathers of a total of eight children.

Four workers were killed and at least a dozen injured when a blast, believed caused by an accumulation of natural gas, demolished an almost-completed building at the Lehigh Portland Cement Co. plant at Mitchell.

One of the Indiana dead was a cleaning woman. The others were construction workers who had been building the 60-by-90-foot building where trucks were to be weighed in and out of the cement plant.

Estate Of $90,000 Due Blood Relative

FREMONT, Ohio (AP)—An estate of $90,000 waits to be claimed by an authentic blood relative of Andrew Fuzesi of Fremont. Probate Court Judge John Bronson ruled Wednesday that Sandusky County schools will share the estate of Fuzesi, a common laborer who made his fortune in cheap real estate. He died without leaving a will.

Judge Bronson said a niece of Fuzesi in Hungary had filed a claim, but the judge ruled that her documents of relationship were not satisfactory.

Walkout Idles Plant

CLEVELAND (AP)—A walkout by 100 skilled tradesmen in the maintenance department Wednesday idled the General Motors Corp. Fisher Body plant here. The strikers, members of the United Auto Workers Local 45, are protesting work being performed by outside tradesmen in a new press room building under construction at the plant. There are 2,600 UAW members employed at the plant.

Schools Need More Foreign Language

Very few American tourists visiting foreign countries this summer will be able to converse in the language of the country visited. But these tourists will be amazed at how many foreigners can speak English. Most of these persons may say they learned to speak English at school. Almost no tourist, alas, can say he learned to speak German, French, Spanish or Italian at school in the United States. The American public is growing conscious of its illiteracy in any foreign language and there is a cry from all sides to teach at least one foreign language in our public schools so it can be spoken.

Dr. Garry Meyers

—:—

IN RESPONSE to the popular demand, many public schools have started such teaching, especially of Spanish and French, in the early grades.

The younger the child, the more readily he seems to take to a second language when it is taught by the direct method of conversation rather than from books. In a few places lessons are given by TV.

Private day schools may have youngsters in the kindergarten or first grade speaking glibly some French or Spanish phrases or sentences to the delight of the parents and the promotion of the private school. But not many schools keep teaching such language on through the grades and on through high school. Many hundreds of young children lose the little they have learned in a language after a few more years.

The reason for this wastefulness usually is that not enough teachers who can speak the foreign language are available. Nor may the funds always be sufficient to hire them.

—:—

THE WISE SCHOOL administration won't begin teaching a foreign language in the grades until he is sure he has the qualified teachers and the funds available to keep on with this language even right through high school, or until the children have a thorough speaking mastery of the language.

Unless you can bring about these conditions, it's doubtful if you should ask the school for such a language course.

No less wasteful is the taking of a foreign language in junior or senior high school for just a year or two. Some day the school will not allow a child to take a foreign language in junior or senior high school unless he is likely to pursue it for 3, 4 or more years.

In spite of these difficulties, the teaching of foreign languages in our public schools should be greatly increased.

My bulletin, "Parents Can Help Child Succeed at School," may be had by sending a self - addressed stamped envelope to me in care of this newspaper.

Lisbon Club To Hold Canvass For Children

LISBON — Mrs. Gilbert Cannon and Mrs. Frank Gbur of the Lisbon Social Club issued a reminder today of the proposed canvass for funds for medical expenses of the two leukemia victims, Virginia Amodio and Cheryl L. Bosel.

The house-to-house solicitation will be held in the near future and a benefit dance will be held July 1 at Krulick Hall in West Point.

The Amodio girl has been returned home from the Columbus Clinic, where her condition was found to be worsening due to an infection. The club has been sponsoring events to help with the medical costs.
